

## PEACE TREATY TO BE SIGNED AT VERSAILLES

### AGREEMENT TO INCLUDE LEAGUE

Seen as Result of Paris Conferences With Object of Bringing Early Peace.

### NEUTRALS TO BE HEARD

Revised Covenant Expected to Be Ready by March 29—Demolition of Forts on Heligoland Decided on by War Council.

Paris, March 19.—Announcement was made at the close of a conference between President Wilson, David Lloyd George, the British prime minister, and M. Clemenceau, the French premier, that no final decisions had been taken but that all the main questions surrounding the Peace conference had been discussed, that the meeting had been entirely satisfactory and that there had been no change in the plans previously announced, which contemplate the completion of the peace treaty within the next two weeks, including the league of nations.

Paris, March 19.—The subcommittee of the League of Nations commission met two days ahead of schedule. All neutral countries with the exception of Spain were represented.

Paris, March 19.—President Wilson planned an important conference with Premier Lloyd George, Orlando and Clemenceau, at the Paris White House.

The question to be discussed is the large one of obtaining accord between the Great Powers on all phases of the peace treaty and its early presentation to the Germans. It is expected an agreement will be reached as to the inclusion of the League of Nations, as an integral part of the peace treaty, in accordance with the resolution which already has been adopted by the peace conference.

Special interest attaches to conference in view of recent reports of divergences between the powers as to the inclusion of the League plan in the treaty. The meeting is looked upon as an earnest effort to reconcile all views into a common understanding for an early conclusion of peace in a comprehensive form, including military, naval, economic and financial terms, as well as the League of Nations.

The general situation as to the peace treaty has been greatly clarified by discussions between the heads of various delegations. American commissioners took the view today that the attitude of the American, French and British governments should be brought into entire accord.

**Tentative Accord Reached.**  
The conferences which have been conducted by Lord Robert Cecil of Great Britain, Leon Bourgeois of France and Colonel E. M. House of the United States have reached a tentative accord and there is reason to believe that today's meeting will approve the action thus taken.

Present plans contemplate the completion of hearings given neutral nations on the League of Nations during

PRINCE EITEL  
Second Son of Former Kaiser  
Is Suing for Divorce.

Eitel Friedrich, second son of the former German emperor, has commenced divorce proceedings against his wife, charging infidelity, says the Kleine Journal of Berlin.

This present week, and during the succeeding week attention will be given to boundaries, reparation and other branches of the treaty. It is believed that the revised league covenant will be ready for adoption at the end of next week.

Disposition of German warships is not likely to be included in the treaty of peace, according to the view of the American peace delegation. Germany, however, will be required to surrender title to the ships. The ultimate ownership will be determined later.

The British delegation to the peace conference, it was announced today, has consented to refer to the supreme council the question of the future ownership of the German cables to America.

All parties interested in the question are preparing briefs.

**Heligoland to Be Disarmed.**  
The fortifications on the island of Heligoland, Germany's formidable base in the North sea, must be dismantled. This decision was reached by the supreme Allied war council.

It was also decided that the Kiel canal should be internationalized and made available to the ships of all nations on even terms.

### LONGWORTH ANSWERS MANN

Asks Former Floor Leader to Leave Organization Alone.

Washington, March 19.—Replying to a recent statement by Representative Mann of Illinois, Representative Longworth of Ohio, Republican, issued a statement asking the former Republican floor leader to "keep his hands off the organization and legislative control of the new house of representatives."

"That is the way," said the Ohio representative, "to bring about harmony in the party. That is the way to make success in 1920 certain."

## NO FRICTION OVER INCLUSION OF LEAGUE COVENANT IN PEACE TREATY

### American Troops Will Be Withdrawn From Siberia

(By United Press)  
Los Angeles, March 19.—American troops now in Siberia will be withdrawn in the spring, Secretary Baker declared upon arrival here today. The exact date depends upon the weather conditions.

### Two Divisions Scheduled to Sail for Home

(By United Press)  
Washington, March 19.—The 26th division New England National Guards, and the 42nd division, Rainbow division, are scheduled to sail from Brest to Boston and New York respectively between March 28th and April 7th the war department announced.

### Three Ships Arrive Today With Troops

(By United Press)  
New York, March 19.—The transport Seattle arrived today with 1500 men and the cruiser Charleston with 1200. Also the steamer Harrisburg carrying detachments of the 147th infantry of the 37th division also arrived.

### 113th Field Artillery Returned Home Today

Newport News, March 19.—The 113th field artillery of the Old Hickory Division complete, arrived today aboard the St. Theresa.

### MUST PAY TAX ON DEMAND

Delinquents Lose Privilege of Payments by Installments.

Washington, March 19.—Collectors of internal revenue have instructions to notify all persons who failed to pay the first installment of their income tax last Saturday, that they thereby had forfeited their privilege of making their payments on the installment plan. All such delinquents must pay their full tax upon demand of the district collector. Persons who failed to file their returns may avoid the penalty of 25 per cent, in addition to the regular tax, if a sworn statement is presented with their return giving a reason for the delay.

### BISHOP J. W. BASHFORD DEAD

Was Well Known for His Missionary Work in China.

Minneapolis, March 19.—News that Bishop James Whitford Bashford, leader in the Methodist Episcopal church, died in a sanatorium near Los Angeles, Calif., has been received by relatives in Minneapolis.

Bishop Bashford was 69 years old. Since he was consecrated bishop in 1904 he spent most of his time in China, where he directed missionary work with headquarters at Peking. He made a wide circle of friends in Minneapolis during many visits here for Methodist conferences. He was here for the last time two years ago.

### STRIKE PARADE CAUSES RIOT

Shots Fired and Police Stoned in Lawrence Mass.

Lawrence, Mass., March 19.—While the police were trying to break up a parade of textile workers shots were fired from tenement houses. Officers were stoned and persons in the crowd clubbed. Many arrests were made. It was the most violent disturbance that had occurred since the strike began six months ago.

### Germans, Austrians to Get Grain.

Basle, March 19.—The Inter-Allied food commission which has been conducting negotiations at Vienna has reached an agreement by which German-Austria will receive five convoys of grain daily by way of Trieste.

**Foreign Rotary Clubs Approved.**  
Chicago, March 19.—Formation of rotary clubs in countries where English is not spoken was approved at a meeting of officials of the International Association of Rotary clubs.

BY FRED S. FERGUSON,  
(United Press Staff Correspondent)

Paris, March 19.—The speed-up program of the peace conference was in full swing today. Committee sessions and meetings of the supreme war council this afternoon were expected to accomplish appreciable progress in winding up the terms of a preliminary peace with Germany. Versailles has been definitely selected as the place for signing of the peace treaty.

BY WM. PHILLIP SIMMS  
(United Press Staff Correspondent)

Paris, March 19.—Another tempest in a teapot seems to have blown over today. Further investigations confirmed that Foreign Minister Pichon in his statement Sunday intended no opposition to the inclusion of the league of nations in the peace treaty, but merely questioned whether there was sufficient time to perfect the covenant for incorporation into the preliminary pact. Neutrals will have their opportunity to present recommendations for amendments to the constitution at tomorrow's session, and it is believed the covenant would be in shape to place before a plenary session for open debate by Saturday.

### Peace Congress Proceedings

BY FRED S. FERGUSON  
(United Press Staff Correspondent)

Paris, March 19.—The supreme war council was expected to ratify formally today the tentative agreement understood to have been reached yesterday on territorial and financial questions of the preliminary peace treaty. The conference yesterday was attended by President Wilson, Premier Lloyd George and Premier Clemenceau. Italy and Japan were not present because the matters discussed did not affect them. The session was described as "satisfactory." Work is being pushed on the league of nations covenant, which shall be included in the preliminary peace treaty. A call was sent to all neutrals yesterday to have their recommendations for changes and amendments ready for presentation to the special session of the league sub-committee tomorrow.

Japan intends to press its position that the covenant which is designed to establish the equality of peoples should establish the principle of race equality.

### PROPERTY TO BE SOLD

France Will Buy American Holdings Overseas.

United States Owns Docks, Railroads, Warehouses, Hospitals and Barracks.

Paris, March 19.—Docks, railroads, warehouses, hospitals and barracks built by the American Expeditionary forces, to the value of \$155,000,000, will be sold to France for the best figure the American liquidation commission can obtain. None of these can be readily or profitably removed, and the only alternative is to sell at the best bargain.

The liquidation commission is now negotiating for the disposal of various surplus properties belonging to the Expeditionary forces. Hundreds of thousands of uniforms have been dyed, so that they may now serve other armies, such as the Belgian, Polish and some of the Balkan states.

The present plan is to dispose of these surplus supplies among the governments which need them.

### For President of Prussia.

Berlin, March 19.—During debate in the Prussian diet over the question of a constitution for Prussia, a conservative speaker argued in favor of providing for the office of President of Prussia. This was objected to by Paul Hirsch, head of the cabinet, on the ground that to create a state executive would be interpreted as an attempt to create a substitute for monarchy. The assembly postponed a vote on the demand of the socialists that the state of siege in Berlin be immediately raised.

### Alleged Countess Arrested for Threatening Wilson

(By United Press)

Chicago, March 19.—Countess Aurelia Bethlen, who says she was a Hungarian noblewoman was under arrest today here, charged with sending threatening letters to President Wilson at Paris. The countess claimed she was gathering sociological data, and was a former lady in waiting to the Empress Elizabeth of Austria.

### British Take Steps for Ocean Flight

(By United Press)

London, March 19.—The British have taken the first step toward a trans-Atlantic airplane flight in the shipment of a secretly built plane, pilot and navigator to St. Johns, New Foundland.

### Huge Relief Fund for State Fighters

(By United Press)

St. Paul, March 19.—Ten million dollars relief for the returned fighters of the state was proposed in a house bill introduced today.

### SEVEN NEW MEMBERS ADDED

New Democratic National Executive Committee Named.

Washington, March 19.—Homer S. Cummings, chairman of the Democratic national committee, announced the appointment of a new executive committee, enlarged to a membership of 16 by the addition of seven new members, with Mr. Cummings as ex-officio chairman. The committee personnel follows: John T. Barnett, Colorado; Charles Bochenstein, Illinois; Dr. John W. Coughlin, Massachusetts; Isadore V. Dockweiler, California; Robert Ewing, Louisiana; Carter Glass, Virginia; Clark Howell, Georgia; Representative Cordell Hull, Tennessee; Senator A. A. Jones, New Mexico; Frederick S. Lynch, Minnesota; Norman E. Mack, New York; W. W. Marsh, Iowa; A. Mitchell Palmer, Pennsylvania, and former Senator Willard Saulsbury, Delaware.

### RAPS LEAGUE CONSTITUTION

Senator Reed of Missouri Opposes Plan as Presented.

Jefferson City, March 19.—At what he termed a "school" on league of nations proposal, United States Senator James A. Reed of Missouri presented his views at a joint meeting of the legislature.

"Visionary," "Worse than autocracy" and "British plot" were some of the expressions used by him in characterizing the league constitution which he declared, with the exception of slight modifications, was a British document.

### FORM PERSHING POST NO. 1

World War Veterans Start Organization at Washington.

Washington, March 19.—General Pershing Post No. 1, has been formed as the District of Columbia branch of a proposed world war veterans' organization. Colonel E. Lester Jones, commander, announced that delegates would be appointed March 24, to meet with delegates from the states and overseas to consider a national organization program. General Pershing has been advised of the plan by cable.

### Federal State Banks Total 973.

Washington, March 19.—Sixteen state banks admitted to the Federal Reserve system in February raised the total roll of state bank members to 973, with total capital of \$352,817,600, surplus of \$403,312,000, and total resources of \$7,382,801,000.

### Harvey Thorpe Easy Winner.

Des Moines, March 19.—Except in the third round, Harvey Thorpe of Kansas City led all the way in his 10 round bout with Jimmy Hanlon, Denver lightweight.

WOODROW W. SAYRE  
First Photo of President's New Grandson and Namesake.

This is the first photograph taken of President Wilson's grandson and namesake, Woodrow Wilson Sayre, who was born to Mrs. Francis Sayre, the youngest daughter of the president. Mr. Wilson paid his little grandson a visit at Philadelphia en route to New York, where he took the George Washington for France.

### HINES SECURES FUNDS

War Finance Corporation Loans Railways \$50,000,000.

Money is Advanced Under Ruling Supporting Industries That Are Essential.

Washington, March 19.—Fifty million dollars was loaned to Director General Hines by the War finance corporation as the first advance for the railroad administration since it was left without funds by failure of the congressional appropriation. Other loans will follow.

The loan was made to the director general as representative of railroads which the war finance corporation considers essential war industries.

Adequate collateral was given in the form of railroad bonds and notes, mainly, it is understood, bonds of the Pennsylvania railroad. The loan was made at 6 per cent, the same rate as is charged by the director general for most advances to railroads, and is payable by July 15.

The loan will replenish the railroad administration's funds which were almost exhausted owing to heavy demands and the failure in congress of the measure appropriating \$750,000,000 for the revolving fund. The railroad administration is expected to use the money for its more pressing obligations.

## Week's Food Allowance for Adult in Cologne and Labor Leader Who Took Sample to England

When Germany turns over her merchant ships she will be fed. This photograph, just received from England, shows the weekly allowance of an adult in Cologne. It was taken to London from Germany by George Lansbury, the British labor leader.

It consists of three pounds one ounce of bread, four pounds of potatoes, ten ounces potato substitute, five ounces sugar, one ounce soap substitute, two ounces butter, four ounces meat, two ounces sausage, two ounces coffee substitute, one ounce barley and one ounce spaghetti substitute.

## UNITED STATES PRODS MEXICO

Urges Carranza Government to Take Steps for Protection of Americans.

## VILLA FORCES ACTIVE

Rebels Capture James E. Whetten, an American, and Joseph Bentley, Mormon Bishop, in Raid Near Las Cruces.

Washington, March 19.—The state department has instructed the American embassy at Mexico City to request the Mexican government to take all possible steps to protect American citizens in the territory in northern Mexico where Villa bands again have become active.

The Mexican authorities also will be asked to effect the release of James E. Whetten, an American, who with Joseph Bentley, a bishop of the Mormon church and a naturalized Mexican, was captured by Villa forces near Las Cruces, Chihuahua, some days ago.

Information that Whetten was in the hands of the bandits reached the department only a short time before a telegram was received from Representative Edward L. Hamilton of Michigan, who said he had been informed by Warren & Co., that employees of the company's ranch at Ojitos, Chihuahua, were held by Martin Lopez, a Villa leader, who demanded \$5,000 ransom under threat of killing the prisoners. The message said the foreman of the ranch was endeavoring to raise the money.

In connection with this case the department disclosed that two days ago it directed the embassy at the Mexican capital to urgently request the Mexican government to extend the proper protection to the employees and to the property of Warren & Co., at Ojitos.

### Troops Sent to Free Prisoners.

Juarez, Mexico, March 19.—Mexican federal troops have been ordered to western Chihuahua by forced marches to rescue Bishop Joseph C. Bentley, president of the Juarez Mormon state, James E. Whetten, chief missionary of the state, and Albert Tietjen another member of the Mormon colony in Mexico. They were captured by Villa troops near Las Cruces, Mexico, and are being held in Villa's main camp, according to unconfirmed reports.

Military information showed Bishop Bentley, Missionary Whetten and Albert Tietjen were being held in Villa's headquarters camp near Rubio, 70 miles west of Chihuahua City.

## Allies' Armistice Chief Seated in Same Chair Kaiser Used When He Was a War Lord

GENERAL NUDOUT.

Only a few months ago ex-Kaiser Wilhelm sat in this chair discussing with the Hun war lords how to crush France, bring England to her knees, teach the "contemptible little army" of the United States a lesson and

make all the allies appreciate that they must bend to Germany's will. This photograph shows General Nudout, chief of the Allied Armistice Commission at Spa, seated in the same chair.

## DEATH CALLS

## THREE BABIES

Son of Ole Knudson of Southeast Brainerd Died of Pneumonia on Tuesday Morning

THE BABY OF F. VAN HORN DIED

Baby Boy of Fred Eastman, Family Now Residing in Chicago, Died There—Funeral Here

Death called three babies to their rewards, bringing sorrow to households here and Chicago.

Van Horn.

The baby of F. Earl Van Horn passed away. The family live in Northeast Brainerd and parents and other members of the household are suffering from influenza, it is reported.

Knudson

Oscar Lloyd Knudson, age 1 year, baby of Mr. and Mrs. Ole Knudson, 1316 Pine street, died of pneumonia on Tuesday morning. The funeral will be held from the home Thursday afternoon at 2 o'clock, Rev. A. Sorenson officiating.

Eastman.

The baby boy of Mr. and Mrs. Fred Eastman, who had lately removed to Chicago, died there of pneumonia and the parents and the little one arrived in the city today. Interment will be in Evergreen cemetery.

The sympathy of the community is extended the bereaved parents and other relatives.

## SOLDIER MAKES SUPREME SACRIFICE

Private James P. Engelhart Died of Hemorrhage of Lungs at Camp Kearney, Calif.

FUNERAL TO BE AT BRAINERD

Leaves Father, Six Brothers and a Sister—Was an Honest, Loyal, Brave Soldier

Private James P. Engelhart, Co. C, 160th Inf., passed away Tuesday, March 18th, at Camp Kearney, Cal., of hemorrhage of the lungs.

He leaves a father J. J. Engelhart, six brothers, Albert of Upham, N. D.; Willis, in France; George, of Longville, Minn.; Frank, Fred and Clarence of this county, and a sister, Mrs. Laura Groshong also of this county.

The remains will be shipped to Brainerd. Funeral arrangements have not yet been made.

## BURTON ASKS TEN MILLION

Says Money is Needed to Maintain Minnesota University.

St. Paul, March 19.—Immediate appropriation of at least \$10,000,000 by the state legislature is necessary to keep the University of Minnesota and its faculty from going to the "scrap heap," Dr. Marion Leroy Burton, president, told members of the senate committee on finance.

"For buildings alone, \$5,500,000 would cover only imperative needs, and \$7,000,000 should be appropriated if all necessary buildings are to be erected. Ten million dollars would be the correct amount of the building fund for this legislature to appropriate," Dr. Burton said.

To Clean a Ceiling.

To clean a blackened ceiling, apply a coating of starch and water to the part that has been discolored by the gas with a piece of clean flannel. Let it dry, then brush lightly with a brush, and no marks will remain.

## 6 VARIETIES OF SPUDS SHOWN

Northern Minnesota Development Association Experts' Opinions Given

12 SAMPLES AT CO. EXHIBITS

Thirty-two Potatoes Each to be Used Making a Semi-Pyramid When Displayed

The six of the eight standard varieties of potatoes recognized by the State Potato Growers' Association and the Northern Minnesota Development Association, which are given preference in rules and suggestions formulated at the Northern Minnesota Development Association convention at Grand Rapids are as follows: Green Mountain, Rural New Yorker, Early Ohio, Russet Burbanks and Bliss Triumph and the premiums for the Burbanks and the Kings at the next convention of the Northern Minnesota Development Association will be only half the size of the other six varieties. The reason for this is that the potato experts desire to show favoritism for the six varieties was considered the best adapted to Northern Minnesota.

County exhibits are to be composed of twelve samples of thirty-two potatoes each. The individual entries are also to be made up of thirty-two potatoes each. The reason for selecting thirty-two potatoes, is that a semi-pyramid can be made, using twenty potatoes for the lower tier and twelve for the upper tier. In this way, boxes will not be needed for the county exhibit, but if the present size boxes are used for the individual entries, thirty-two potatoes will fit in very nicely, making four rows of eight potatoes each.

Potato growers in Northern Minnesota are urged to devote their attention to raising the six varieties mentioned of the eight standard varieties recognized by the State Association. It is considered by experts that Burbanks and Kings are not the best adapted for Northern Minnesota, although they have been raised in some sections with success.

## Hun Dignitaries Learn One Lesson

BY WEBB MILLER

(United Press Staff Correspondent.)

Coblentz, Feb. 13 (By Mail)—The Prussian provincial and city authorities at Coblentz got an unpleasant surprise when they tried to equivocate with the American officers in charge of civil affairs. Now they are working in harmony and evidently with a wholesome respect for the straight-from-the-shoulder methods of the Americans.

After taking charge of the civil affairs end of the occupation, Col. L. L. Hunt went for the president of the province and the burgomaster for a conference. At the appointed hour the secretary of each of the dignitaries showed up at the conference room to represent these officials. Col. Hunt immediately sent them back with a message that the president and the burgomaster should present themselves in person at his office within a half hour. In about 10 minutes the indignant officials appeared, protesting that their secretaries were empowered to speak for them.

"When your secretaries have any business over here, they are at liberty to see my secretary," Col. Hunt told them, "but when I send for you I want you." Then he gave the ruffled officials a bit of advice. In the midst of his talk the president arose and announced that he was forced to leave to keep an important appointment.

"What is this important appointment?" Col. Hunt asked. The Prussian declared that it was a very important conference with a "man from Bonn."

"Sit down," Hunt ordered. "There is only one more important appointment that you can have, and that is with General Dickman, commanding the army."

The uneasy officials sat down and listened with attention to the remainder of Col. Hunt's speech.

"You fellows needn't presume because we treat you decently that it is a sign of weakness on our part. It is merely an indication of our patience. Our patience is not endless. Your government presumed upon our patience once too often in time past, and it cost you the war."

With these words ringing in their ears, the two officials departed. Since that time they have cooperated with the American officers to the best of their ability.

Cut This Out—It is Worth Money  
DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2855 Sheffield Ave., Chicago, Ill., writing your name and address clearly. ## Steffolikes Found His Match in Army

(By the Overseas Camp Dodger News Service)

Gondrecourt, France (Special by Mail)—Alexander Steffolikes is a Greek wrestler. Back in Yonkers, N. Y., his home town, he was looked upon as a sure bet for the championship of New York, New Jersey and vicinity which is taking in a large number of nationalities, if not so much territory. He was at Holding Camp No. 1, near Le Mans, awaiting a Hoboken-bound boat. Upon his sleeve was a gold stripe earned in chasing Jerries.

Alexander threw everybody who would wrestle him at the casual camp and then looked around for other worlds to conquer. He sent a sweeping challenge to Le Mans for matches.

One day a lantern-jawed youth blew into the holding camp. He said he knew a little about the mat game and Alexander invited him to a contest. The youth said that he had stated that he knew a little about the game, but didn't care to try anyone of Steffolikes' renown. Alexander implored, but the youth only shook his head.

Finally Steffolikes gave up hope of getting a match and offered to bet 1,100 francs that he could throw anybody in the A. E. F. At this offer the lantern-jawed youth scratched his chin and said he didn't like the idea, but he was game to try—even with 1,100 francs on the match.

He didn't have the money himself, being broke but he knew some men who were masters of the bones and they had it. He borrowed the necessary 1,100 francs and the match was staged. Thirty minutes after the match was started the youth had paid back the money he had borrowed and he had Steffolikes' 1,100 francs in his pocket.

And, Steffolikes does not know, unless he reads this story or some of his friends do, that he had the honor of being thrown by Earl Caddock of the Eighty-eighth division, world's heavyweight wrestling champion.

Caddock was at Le Mans awaiting a ship home, but was sent back to the Eighty-eighth by a general order. He is now working out at the 313th sanitary train in preparation for the A. E. F. wrestling matches in Paris.

For several weeks his stomach has been troubling him, but he is now much better, part of the treatment being given by Capt. Joseph Ruyavitz, who has the task of getting the champion in shape, is a wild boar hunt several times a week. He loads Caddock with a German rifle and starts him out. The "big" boy is getting to be an expert with the rifle.

The heavyweight championship of the Second Army has been conceded to Caddock without a contest. Representatives of the other "weight" classes in the Second Army will be selected by elimination contests in the near future.

A Sewer Went Forth to Sew.

Said the facetious feller, "When a man tries to sew a button on a coat he generally makes it appear as if he were sewing the coat on the button."

## HARDWARE

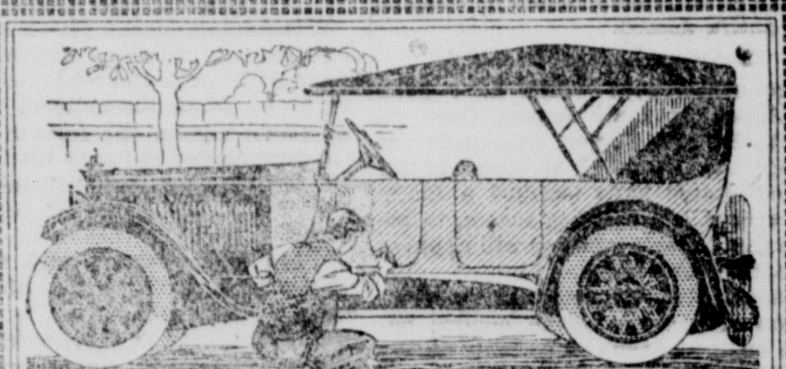

Every person building a new house or remodeling an old one should pay particular attention to the selection of the hardware—no detail is of more importance.

For Bed, Board and Laundry. Here is a perfect gem of misplaced English from a woman answering an advertisement for a French governess "au pair": "I know a little English, and could give easy, at once, lessons in French, for which I will be nourished, lying down and bleached, who, I think, are the conditions 'au pair.'"—Boston Transcript.

A Friend Recommended Them  
J. N. Tobill, clerk Lottie Hotel, Evansville, Ind. writes: "For six weeks I suffered constantly with pains in the muscles of my thigh. Upon recommendation of a friend, I tried Foley Kidney Pills and began to get relief almost immediately. They stop backache, rheumatic pains, soreness and stiffness. H. P. Dunn."

## WOMAN'S REALM

## Swedish Baptist Church Notes.

A Quarterly Missionary Meeting—The Swedish Baptist church has planned to hold four missionary meetings during the year. The first of these meetings to be held Thursday evening.

The missionary service begins with a light lunch at 6:30 and a social hour. The lunch will be served by the Ladies' Aid society. As the lunch will be donated all the ladies of the church are asked to bring something in the line of food. No tickets are being sold and no admission will be charged.

The program begins at 8 o'clock in the church auditorium. Rev. R. E. Cody of the American Baptist church will give a stereopticon lecture on China. The choir will sing, and all members of the choir are asked to come prepared for a rehearsal before the program.

The object of the meeting is to raise our budget for Home and Foreign Mission work. The members of the church will please remember to bring a liberal offering—in envelopes—that the budget, unanimously accepted by the church, may be raised in full at this meeting. The public is invited to attend.

## 5-Cent Social

The Boys Club of the Swedish Bethany Sunday school will give a "5-Cent Social" at the church on Friday evening, March 21, at 8 o'clock. There will be five numbers on the program, given by the boys themselves, and five different refreshments will be served by them. The admission will be 5 cents. A good time is assured and there will be at least 555 smiles. The boys say only 555 persons will be admitted so be on time.

## Bethany Ladies Aid

Mrs. Frank Fredstrom and Mrs. August Swanson will entertain the Ladies Aid society of the Swedish Bethany church Thursday afternoon at 2:30 at the home of Mrs. Swanson, 806 South Sixth street. A cordial invitation to all.

## Bethlehem Aid

The Bethlehem Lutheran Ladies' Aid will meet Thursday afternoon with Mrs. A. L. Anderson of Main street.

The MERCHANTS who ADVERTISE  
HAVE the FINEST STORES

## Guild-Ringing

Bessie Guild and Ira J. Ringering were united in marriage at 3 o'clock Tuesday afternoon at the home of the bride's parents, Mr. and Mrs. Daniel Guild, 514 North 4th street. Rev. R. E. Cody, pastor of the First Baptist church officiated.

Miss Pearl Ringering, a sister of the groom, acted as bridesmaid and Clarence Guild, a brother of the bride, as best man. The groom has recently returned from five months service with the A. E. F. in France.

A small company of near relatives were present. After the ceremony a bountiful wedding dinner was served.

The wedded couple will leave soon for South Dakota where they will make their home.

## Mid-week Service

The regular mid-week service will not be held at the First Baptist church on Thursday night. In its place a union missionary service will be held with the Swedish Baptist church on Oak street. At this meeting Rev. R. E. Cody will give a missionary lecture entitled "John Chinaman at Home," illustrated with many colored lantern slides. These views will give some scenes from the territory in which Miss Jennie L. Cody, who recently died in West China, has been laboring. Everyone is invited.

## Sunbeam Circle

The Sunbeam Circle will meet this evening with Mrs. Hans Erickson of North Ninth street.

## A TWICE-TOLD TALE

One of Interest to Our Readers

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a Brainerd woman is confirmed after ten years.

Mrs. Amanda Erickson, 1103 E. Oak St., Brainerd, says: "I suffered with my kidneys for two or three years. A dull pain through my back and joints burdened my health and kept me in constant discomfort. I was subject to headaches and dizziness. I tried Doan's Kidney Pills, procured at Dunn's Drug Store, and now I feel much better in every way."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Erickson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## ALL WEAR VELVET

Material Also Popular for the Small Girl.

Enters Largely Into Construction of Best Frocks as Well as Garments for School Wear.

Everyone wears velvet this winter. This means that the small girl is either entirely or partially velvet-robed during the majority of her wide-awake hours. Velvet is not used to develop evening frocks for the very young, but it enters very largely into the construction of many best or "Sunday" frocks, as well as into the garment designed for school wear. The dress made entirely of velvet is usually very picturesque and distinguished, with white collar and cuffs, and often a wide sash of satin in self or contrasting color. For school or service wear a velvet skirt may be accompanied by a blouse of crepe de chine or satin, or a sleeveless velveteen blouse may be worn over a plain or plaid frock of serviceable wool material.

The sketch shows a smart little frock for a girl of six or eight years, combining a one-piece dress of plaid serge in red and black with a square cut, hip-length coat of black velvet or velveteen, finished at the neck with a ruffle of white organdie or georgette. The sleeves of the jacket are cut short enough to show a few inches of the plaid sleeve.

The cap to be worn with this outfit may match either dress proper or jacket, or a combination of the two materials may be employed.

A great deal of attention is being paid to clothes for children this winter, and it is interesting to observe the exactness with which the wardrobe of the well-dressed grown-up is copied in miniature for the child.

Sleeveless and low-necked underslips of pale colored silks and satin

Velvet and Plaid Serge Dress.

for girls as young as four years are shown, to be worn under little party frocks of net and other sheer fabrics. Hand-embroidered silk pajamas and silk nightgowns are also developed for these very little people. This scheme of dressing has its advantages, too. It is a real education in the art of being well dressed, started at the right time.

## DIMITY AND DOTTED SWISS

Fabric Used for Blouses Which Give Most Pleasing Effect—Handkerchief Linens Used.

Dimity and dotted swiss blouses are made up in smartly tailored waists which button up to the chin and have long sleeves and tight-fitting cuffs. So many women like this sort of waist for morning wear and for sports that it is a delight to find it in these two such cool and fresh materials.

The organdie waist, which was brought out some seasons ago, never really caught on, though it was attractive in the rather vivid shades of blue, rose and canary. The organdie being so transparent, though so delightfully crisp, it looked particularly refreshing. Blouses made of it seemed practically two, as the smoothest fitting and most perfect of linings only underneath could be permitted.

It is the handkerchief linens which have supplanted these transparent beauties, and the linen lends all the charm of color which the crisp organdie presented. Many of the white linen waists have touches of color, as for instance in one smart model which has three stripes of color, one below the other and on each shoulder, these forming a sort of yoke. Very narrow frills finish the little yoke at the shoulders and trim the shallow, round collar and small cuffs.

## Smocks for Girls.

The pretty little cotton smocks and frocks worn by Miss Eight-Year-Old are made smart with cross-stitching or something in brightly contrasting wool. Pale green cotton crepe de chine, for example, is trimmed with stitches of rose wool. All kinds of wool dresses have oriental effects done in coarse stitches on the pockets, collars or sash ends. Wool embroidery many times ornaments the frock, about the neck, as a substitute for the white collar worn formerly.

## DRUGS that make the ILL one WELL

Drugs that make the ill one well are those drugs that have purity, potency and power, which are fresh and vigorous in their action and which are properly put together to bring out all that is remedially best in each and in the combination. So much, indeed, depends upon the druggist of ability to know all these things and to properly provide them for your benefit. So much depends upon you to carefully consider these things and to bring your prescriptions to us where so much is guaranteed.

EXCLUSIVE AGENTS FOR NYAL, A. D. S. AND SAN-TOX REMEDIES

There are more than 3,000,000 Ford cars in daily operation in the United States. This is a little better than one-half of all the motor cars used in America. The Ford car is every man's necessity. No matter what his business may be, it solves the problem of cheapest transportation. We solicit your order now, because production is limited, and we must make it the rule to supply first orders first. Touring Car, \$525; Runabout, \$560; Coupe, \$650; Sedan, \$775; Truck Chassis, \$550. These prices f. o. b. Detroit.

WOODHEAD MOTOR CO.,

Brainerd, Minn.

Our Offer to Save \$10 to \$15  
On Every Round Oak Pipeless Furnace  
Goes Into Effect Wednesday, March 19th

Beginning Wednesday, the 19th, we will accept contracts for the installation of the Round Oak Pipeless Furnace. This may be installed later in the season if desired.

In this connection we will also offer a special service. Every Round Oak Pipeless System sold will be installed according to a scientific blue print plan supplied free by the Round Oak Engineering Department.

It costs 5% or more to canvass for heating contracts. By your coming into our store during this 10 day period, you reduce

our selling cost. You enable us to book ahead a large number of contracts which keep our men busy without loss of time.

We are in position to purchase the heaters, castings and fittings in large quantities. We propose to give YOU the benefit!

Here are a few advantages of the

Round Oak Pipeless Furnace  
The Best Pipeless Furnace on the Market

It will heat your home year after year with a generous volume of pure, warm, moist, ever-changing air, free from dust, gas and smoke.

It will burn any and all fuels successfully and economically. It will hold the fire over night without recharging, even in zero weather.

The System costs only one-fourth to one-third the price of steam or hot water, yet it responds more quickly. Its results are positive.

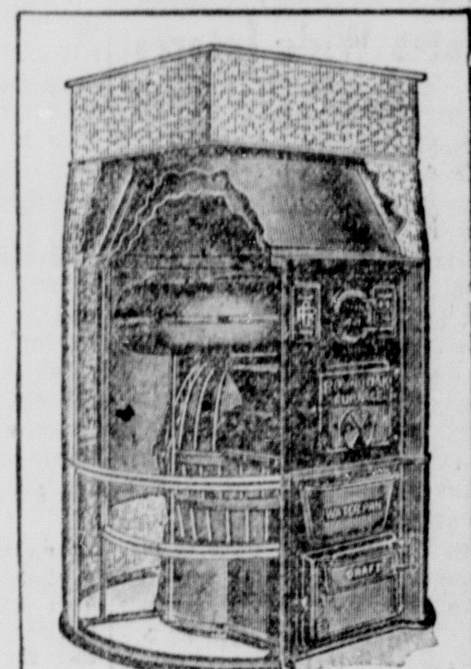

It may be easily and quickly installed and ready for service in less than twenty-four hours from the time it is delivered to your home.

The Round Oak Pipeless  
Is a Clean System

The patented, improved, bolted and deep-jointed construction and its heavy castings mean no dust or dirt in your home.

We are positive it is the best built, most efficient, durable and satisfactory Pipeless Heating System on the market.

It is worth every cent you invest in its purchase. Its saving in fuel alone pays a liberal interest on the investment.

10 Star Points of Round Oak  
Pipeless Supremacy

(The best pipeless furnace on the market)

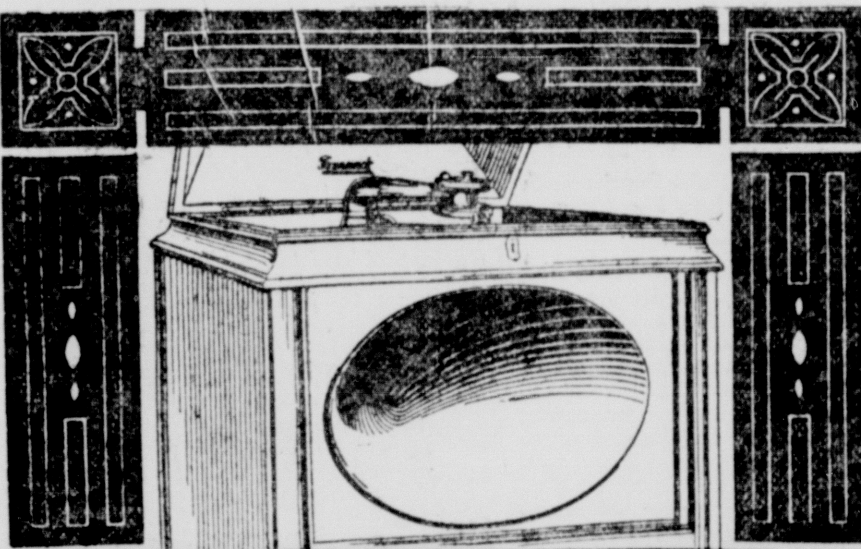

- ★ 1. Built Absolutely Fire Proof. (See Catalogue.)
- ★ 2. Improved, Gas and Dust Tight Bolted Construction.
- ★ 3. Burns All Fuels Successfully—Economically.
- ★ 4. Strongest—Lasts the Longest. Heavier too.
- ★ 5. Humidifies and Circulates Pure Air.
- ★ 6. Holds the Fire 24 Hours.
- ★ 7. Cool Basement—Delivers All the Heat to the Home.
- ★ 8. Responds more Promptly than a Stove.
- ★ 9. Easily Operated and Quickly Installed.
- ★ 10. Made by "Makers of Good Goods Only."

Valuable Heating Book Free

You should secure one of these free Round Oak Pipeless Books, 9x12, profusely illustrated, which proves all of these claims and describes other distinctive advantages.

Brainerd Hardware Co.

Laurel Street, Brainerd, Minn.

Better Tone

How The Brunswick  
Attains It

EVEN the most casual hearing of The Brunswick gives instant and conclusive evidence of its tone superiority. Your ear immediately detects the difference.

This betterment is due to the Brunswick Method of Reproduction, which includes two new ideas—the Ultona and the All-Wood Tone Amplifier.

The Ultona plays all records at their best, whatever make. Just a turn of the hand and the Ultona presents to each type the proper weight, diaphragm and needle according to its exact requirements.

Perfect reproduction is followed by perfect tone development through the new All-Wood Tone Amplifier. No metal is used in its construction.

Investigate The Brunswick before you buy; a visit to our shop will give you new standards by which to judge.

## WHAT HAS BANK DONE?

Anoka was shocked to hear that a model citizen was accused of the crime of robbing a bank and almost beating to death the girl cashier.

What is still a greater wonder is what the First State bank of Champlin is doing or has done or will do to reward the heroic girl, one out of a thousand, who stood her ground, refused to reveal the combination of the safe and saved the bank of thousands of cash in its vault?

The reward given Miss Flynn will prove an incentive to other cashiers, especially big strong men, to face a gun in the hands of a bandit and save the cash of their employers.

If nothing is done for Miss Flynn it will show that whole-souled devotion to duty must seek its reward in heaven.

## 8 HOUR DAY FOR FIRE TRUCK DRIVERS

The Dispatch heartily commends an 8 hour shift for the fire truck drivers, made possible by employing a third man. At present the two drivers are on 12 hour shifts.

Chloride of Lime. Where have we smelled it? Read today's article in the bond issue column. It is evident that to be safe more chloride rather than less than the required amount is introduced into the water. It may be all right to pour it into our bodily systems, but there are innumerable people in Brainerd who will not take the chance and use well water instead, or boil the river water. But who likes boiled water; show us the person; nothing could taste flatter. Then, think of it, few bugs are as dangerous as a billion; What chances we take. We know that chlorine does not kill crabs because one was taken alive out of a hydrant and is now enjoying a peaceful existence in the goldfish bowl in the Water and Light office.

## Willard-Dempsey Fight Creates Wide Interest

BY TOM LEWIS, (Sports Editor United Press)

New York, March 17.—Interest in the forthcoming championship contest between Jess Willard and Jack Dempsey is increasing daily, according to well-informed boxing enthusiasts. It is predicted here that the bout will draw a record-breaking crowd if the fight is staged within easy accessibility of the Eastern and Middle Western states.

The fact that Dempsey has disposed of many of his opponents with such remarkable ease has made him tremendously popular with fight-lovers and many here are inclined to believe that the challenger will give the champion the battle of his pugilistic career. Willard, too, is assured of the support of thousands of fans who believe that he will dispose of Dempsey with comparative ease if he can throw off his surplus weight and get into good condition before July 4 contest.

Some believe that Tex Richard, the promoter of the scheduled bout, took a long chance when he offered such a huge inducement to get the contestants together, but Rickard, an old hand at the game, smiles confidently and declares that he has no misgivings as to the total gate receipts. Richard bases his confidence on the theory that the country is ripe for a championship contest in the heavyweight division and he believes that the returning soldiers will be very eager to witness the fight. Hundreds of thousands of Americans have learned to box, as a direct result of their war training, and Rickard points out that these men will not only want to box themselves but will also be keenly interested in the sport from the viewpoint of the spectator. This circumstance, coupled with the fact that the best men in the heavyweight division have been idle for a long time leads Rick-

# WHY YOU SHOULD VOTE WATER WORKS BONDS

A series of articles prepared by the Water & Light Board to explain why new water works are necessary, what is planned to replace the old works, and the suitability of that which is advocated.

## XIV. Chlorination

The question has been asked why our present river-water, as served by the city, sometimes has such a strong odor of medicine, or hospital-like. We will explain this.

The odor referred to may to some people resemble that of medicine or that of an operating room in a hospital, but it can also be detected around some out-houses and garbage barrels which have been disinfected to kill their natural odor; and the boys who faced the Huns are also familiar with the odor, unless they wore their gas masks. With us it is due to the same chemical, which has been injected in the water in Brainerd to kill bacteria and make the water safe to drink.

Surface waters, like Mississippi river, are loaded with typhoid bacteria, and many others but far less injurious, and must be disinfected before used. The commonest and best disinfectant is calcium hypochlorite, frequently called (and certainly better known as) chlorinated lime or "bleech." It is strongly disinfectant, which is its most important use. Its use in water is merely to protect against objectionable bacteria; no improvement in physical or chemical character of the water is contemplated, altho it does harden the water.

The form hypochlorite is used instead of the plain or ordinary chlorite of calcium because it contains more chlorine and holds it loosely, thereby readily setting free the active chlorine-gas, which destroys the bacteria in a few hours. The first poison-gas used by the Huns was largely chlorine-gas. It is a powerful gas, and in laboratories great caution is exercised to guard against it. When using it in water it is always used in excess of the quantity actually required. It readily imparts its odor and taste. These can be neutralized by adding other chemicals, like calcium sulphate. If the water is deeply colored or contains much suspended matter, a larger quantity must be used and when our river water is real dirty the dose must be made still heavier.

The war made the price of bleach go skyrocketing, and since then, liquefied chlorine gas in steel tanks or tubes sealed under high pressure has become the rule for our use. It discharges thru a small tube into a meter or measuring device directly into the mains.

Some authorities insist that chlorine is a "dope" rather than a germicide, claiming its action to be but temporary. Others claim that it attenuates rather than destroys. But even if an aftergrowth follows, the fact remains that in Brainerd it has stood between the people and disaster. It costs Brainerd \$2,000 per year to give this service. With an underground water-supply this expense will be eliminated entirely; if you filtered river water in a filtration plant it would still be necessary to use chlorine because a filter plant does not remove all the bacteria, and a few bugs are just as dangerous as are billions of them.

## Canadian Red Cross Train to Omsk, Vladivostok, March 19.—The Canadian Red Cross is sending another trainload of supplies to the Omsk district for Russian refugees.

French Refuse Socialists Passports. Paris, March 19.—The government has refused to issue passports to three Socialists who were selected to go to Russia to investigate the Bolshevik government in accordance with the decision reached at the recent Socialist congress at Berne.

Two Yanks Killed in Train Wreck. Paris, March 19.—An American freight train ran off an embankment near St. Nazaire, killing two Americans, and injuring the engineer and fireman.

## Stopped Cough After Influenza

"Foley's Honey and Tar is the best cough medicine I ever tried," writes E. B. McDowell, R. F. D. 1, Box 119, Arlington, Tenn. "My son had influenza. He had the worst kind of a cough. I tried everything but nothing did any good. God sent me a friend with Foley's Honey and Tar, and in two days his cough was gone." H. P. Dunn.

ard and others to believe that the big bout will find immediate popular favor.

## NORTHWEST NEWS

## Better Business Congress

Minneapolis, March 19.—After the war development for the northwest was to receive its greatest incentive here today with the opening of a "Better Business" congress.

Secretary of Commerce William C. Redfield and Secretary of the Treasury Carter Glass were to be speakers at a series of meetings in the Twin Cities ending Friday with a big boost for the fifth Liberty loan.

It will be the first time in history that two members of the federal cabinet have appeared simultaneously in the northwest metropolis.

Eight hundred and fifty commercial clubs throughout the ninth federal reserve district have been invited to send representatives to the congress. There will be a special session for commercial secretaries. W. G. Bruce of Milwaukee secretary of the Merchants and Manufacturers' association there will be the principal speaker at the conference of secretaries. Principal elements of the work that comes before such bodies will be widely discussed.

Secretary of Commerce Redfield will address the business men tonight on "Better Markets for American Products." Tomorrow noon he will address an open forum at the St. Paul association on "The Revival of River Navigation."

Secretary of the treasury Carter Glass will outline plans for the Victory Liberty loan at meetings in Minneapolis and St. Paul closing with a big mass meeting at the St. Paul Auditorium Friday night.

## Canadian Railway Building

Winnipeg, March 29.—Railroad construction in Canada will give employment to thousands of men within a few weeks. The first good weather will see men moving to the construction camps in large numbers and the first movement will start within a few days.

West of Port Arthur, Ont., the Canadian Pacific and Canadian National Railways will require 16,000 men for the summer. Other railway projects will require smaller numbers but there will be plenty of employment for all officials believe.

Within three months officials said, there is more apt to be a dire shortage of labor than a surplus.

## Teutons Speak of Another Struggle

By FRANK J. TAYLOR (United Press Staff Correspondent) (Copyright, 1919, by the United Press)

Berlin, Feb. 26 (By Mail).—Three months' careful study of Germany, following the signing of the armistice, forces the conviction that neither war from without nor revolution from within has worked any psychological metamorphosis of Germany as a nation, or of Germans as individuals. Neither the strength nor the weaknesses of the German people evidences any transformation. The minds which accept and apply the terms of peace will differ but little from those which steered the successful course of the German empire up to August, 1914.

The revolution has changed the form of government. It has not changed the governed. The war has brought to Germany defeat, disaster and destitution. It has not brought despair nor humiliation. A half-dozen speakers at the National Assembly in Weimar voiced the general feeling of the people when they said, in effect:

"We have not been defeated militarily. Hunger and the revolution forced us to quit. We accepted President Wilson's Fourteen Points and demobilized voluntarily, according to the provisions of the armistice."

The foreign office's policies and the attitude of its individual secretaries are unchanged; its personnel is practically the same as before the revolution, though the officials all profess to be democrats. Now they claim they opposed the war, especially employment of "frighthfulness."

Count Bernstorff is considered by many well-informed Germans to be the man who is really running the foreign office with his cousin, Count Brockdorff-Rantzau, chief in name only. The Germans feel that Brockdorff-Rantzau's speech outlining the nation's foreign policy marked a new era in diplomacy because he stated frankly what the Germans consider modest. These included retention of the German colonies, a plebiscite for Alsace-Lorraine, repatriation of German war prisoners and reparation for damages only.

Ostensibly, the censorship was removed with establishment of the present government. Yet priority of news dissemination is still preserved as an exclusive and monopolistic privilege of the Wolff Bureau, which was the semi-official propaganda agency under the old regime. Foreign news-

paper correspondents's dispatches are held up six hours after the same information is obtained by Wolff. This guarantees to that organization the opportunity of giving the world its first, and therefore its strongest impression of any internal German situation.

No German making the first pretense at frankness will attempt to create the impression that the disastrous results of 1914-1918 have created any deep-seated aversion to militarism among the German people. Men and women, both in and out of government circles, talk very casually of another war of revenge against France if Alsace-Lorraine is taken from Germany. They refer to this possibility as though it is to be accepted by everyone as a logical matter of fact.

Imperialistic, even monarchistic, utterances during the National Assembly meetings have stirred up no opposition from the delegates, except the radicals. For instance, Count Posadowski, conservative leader, defended Bismarckism. He advocated re-establishing the old regime, which he called the most benevolent and advanced government in the world. The delegates, save for a few radicals, listened blandly while Posadowski declared that a monarchy is the best form of government.

In addition to the Wolff Bureau's influence on foreign propaganda, there is now a new government department which daily is furnishing the people with inspired opinion through the press. The theme of this propaganda is: "There has been no revolution in Germany—just a new form of government." With the exception of government organs, the press refuses to take the National Assembly very seriously.

A number of younger employees who joined the government through idealistic motives are switching to the radicals, believing that a real revolution is coming when the industrial workers and soldiers' councils decide that their expectations are not to be fulfilled. These elements are thoroughly organized and refuse to relinquish a iota of their power, though a representative republic has been established, because they apparently mistrust the motives of the coalition leaders.

The situation in Germany, without doubt, is critical as regards food, industry and finance, but this does not seem to have effected any radical change in the psychology of the general public. Public opinion throughout the country does not fix the guilt for the war upon Germany, nor upon the ousted ruling class. It does not acknowledge German military defeat. Germans believe they are in their present position because—as their propaganda tells them—their idealism led them to lay down their arms and trust Wilson.

## College Students Learn Aviation

(By United Press)

New York, March 19.—Paving the way for future commercial aerial activities and at the same time making ready an air force for military needs, the Division of Military Aeronautics has arranged a training program for college students which will not interfere with their prescribed college courses but will, at the end of three years, turn them out prepared for commercial, sport or military aviation duties.

The plan, as announced by the War Department, in connection with its Exhibits at the Aeronautical Exposition here, permits the college student to absorb the courses previously included in the curricula of the ground schools while working for his degree.

The assumption of the War Department is that aviators must be young men, and they point to the experience of the war to prove their point. For this reason, they say, there must be a constant stream of candidates going through the schools.

The government's detailed plan as explained at the Aeronautical Exposition by Colonel B. E. Castle, formerly of the Control Board, Division of Military Aeronautics, is as follows:

"We are proceeding on the assumption that aviators will become superannuated more rapidly than any other kind of officer, so that it is imperative that the supply of trained personnel be kept up. In view of the strength of the air service at the cessation of hostilities and in view of the depreciation among our reserve officers of not less than ten per cent a year, it is estimated that we must draw about 1,000 pilots, 850 airplane and balloon observers, and 100 engineer officers every year.

"In order not to take the better part of a year of a man's time to train him as a pilot or observer, the machinery of the Reserve Officers' Training Corps was chosen as most likely to bring about desired results.

"In outline the plan is to give the equivalent of the work formerly done in the ground schools exclusive of

## POLITICAL ANNOUNCEMENT

(Issued by Dr. J. A. Thabes in his own behalf.)

To the Citizens of Brainerd:

I have been requested by citizens of Brainerd to become a candidate for the office of Mayor at the coming spring election on April 1st. This request has come from men in all walks of life and with whom I have been associated and acquainted for many years.

After careful consideration, and I must admit with considerable reluctance, I have consented. I will go before the voters representing no faction, organization or interest, but as a plain citizen of Brainerd and one who earnestly desires to do his part in promoting the best interests of the commonwealth.

The only public office I have ever held was a member of the school board from 1904 to 1908 and I now ask the voters to consider my candidacy for mayor upon its merits and judge me by my record of 37 years residence in this city. I appreciate the fact that the years immediately ahead of us will be vitally important years. To my mind, we are at the very doorway of an era of progress and development which will require the thoughtful consideration of the men who make up every department of the city. If it is felt by the voters that I will measure up to the responsibilities of the office of Mayor, I ask their support at the polls. If in their best judgment I will not fill the bill, I expect them to indicate it when they cast their ballot on April 1st.

If I am defeated, there will be no sore spots, and for any other candidate, I have nothing but the best of words to say. I appreciate the honor that has been conferred upon me in urging me to make the run. If I am elected, it will be my earnest effort to give this city a careful, businesslike administration of affairs, with no favoritism shown and with "A square deal for all" as my platform. There are no strings to my candidacy. I will make no promises, but will go before the people as a free, moral agent, asking their support and their confidence. Should I be honored at the election, I propose to devote such time to the administration of the duties of the office as are necessary and I will sever my connection, in any official way, with such community organizations as I am now identified with, for I feel that the responsibilities ahead of the man, whoever he may be, who is elected to the office of Mayor, requires his undivided public attention.

DR. J. A. THABES.

military practice—that is, airplanes, engines, gunnery, navigation and maps, infantry and artillery cooperation, and signalling—at the college and universities during the college year and give flying and military training during the six weeks summer camp held at northern flying fields.

"Everything possible will be done to cultivate a high esprit de corps among the candidates by general lectures on the achievements of Air Service and by the fostering of sports and games as a part of the curriculum."

## WOMEN RESTORED TO JOBS

Labor Board Rules in Favor of Cleveland Conductors.

Washington, March 19.—Women streetcar conductors of the Cleveland Railway company, who were discharged March 1, must be restored to their work under a decision of the War Labor board made by Joint Chairmen Taft and Manly. Sixty-four women will be affected by the order. A former order of the board was set aside by the new decision, which restores seniority and other privileges to the women workers.

## Guard the Children's Health

Mrs. H. H. Baker, of New York, writes: We have always used Foley's Honey and Tar for colds and find it great. The children all run for it when they see the bottle and ask for more." Contains no opiates, safe, and harmless, but gives prompt relief to coughs, colds, croup and whooping cough. H. P. Dunn.

# COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

# What Makes Men of Blood and Iron? Men of Stamina, Force and Success—Men Who Lead The Way

Physician Explains Secret of Strong Nerves, Keen Active Brains and Great Physical Energy—says

Nuxated Iron Helps Put Strength and Energy Into The Veins of Men

It is the men of blood and iron—on a par with the war-hardened fellows returning from camp and field—who will forge ahead in the business and political life of the country today. Living in the open, eating coarse foods and leading regular lives have made blood rich in iron for these strong, healthy, vigorous specimens of manhood. But no such opportunity for building up their health is open to thousands of men and women in civil life whose wearing tasks and iron-improvised food sap their energy and make them weak, anemic and run-down and often cause their blood to literally starve for want of iron.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood, Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Iron is absolutely necessary to change food into living tissue, muscle and brain. Without iron there can be no strong, red-blooded men or healthy, well-developed women, and unless this strengthening iron is obtained from the foods we eat, it must be supplied in some form that is easily absorbed and assimilated. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive. For supplying this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron."

After a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results.

### 3 SHIFTS, 8 HOURS, FIRE TRUCK DRIVERS

Alderman W. J. Lyonais Advocates Cutting Down Hours of Service and Putting on Third Man

#### MATTER UP IN THE COUNCIL

Condemnation Ordered of Property Needed for Installation of New Waterworks

\*\*\*\*\*  
Alderman W. J. Lyonais brought up in council the question of cutting down the hours of service for the fire truck drivers to 8 hour shifts and employing a third man for such service. No definite action was taken.  
\*\*\*\*\*

The council had a short meeting at which all members were present except Alderman Hall.

C. A. Stadlbauer made a verbal request for a permit to install an electric sign at his garage in the Benson building, corner 4th and Laurel, which on motion carried, was granted subject to supervision by the city engineer.

D. A. Peterson made a verbal application in behalf of the Woodhead Motor Co. for a permit for the installation of a filling station at its store building, corner 7th and Front streets and on motion of Aldermen Lyonais and Paine, carried, the request was granted subject to supervision by the city engineer in its installation.

Hugo A. Kaatz presented a petition from residents of Kindred street of East Brainerd for paving with cement Kindred street between the east end of the fill and Third avenue. On motion of Aldermen Paine and Strickler, carried, the city engineer was requested to prepare an estimate of the cost of such improvements and take up the proposition with the Northern Pacific railway company with a view of securing from it a portion of the cost.

In the matter of the apparent deficit in the sewer construction fund, Aldermen Paine and Lyonais moved that the sum of \$2,926.69 be transferred from the permanent improvement revolving fund to the sewer construction fund, such amount representing interest accruing to said sewer construction fund and erroneously distributed to the credit of the revolving fund up to April 30, 1917. The motion carried.

Aldermen Strickler and O. C. Anderson moved that the city engineer be directed to place adequate safeguards at the washout on the fill on South Sixth street.

As a result of the past thaw quite a portion of the Betzold dump was washed away by water seeping through the embankment. Thirty feet of railing was torn away. The place is now protected at night by danger signals and the washout has been temporarily repaired until the frost is out when more extensive work will be carried out to make it safe. This is the third time the place has washed out and the repairs made this time are expected to remain there permanently.

The city engineer was also instructed to examine the reported washout on 13th street.

In a letter the Water & Light board asked that steps be taken to condemn the necessary property in connection with the installation of the new waterworks plant and on motion by Aldermen Paine and Turcotte, carried, the city engineer and city attorney were directed to work out the details and take the necessary steps for such condemnation.

The renting out of Lum park for the coming season was discussed and left with the city property committee for the conference with the Park Board and the Mahlum Lumber Co. to report on at next meeting.

The fire committee was granted further time in which to report on the matter of acquiring a siren for a fire alarm.

Albert Kosbab was allowed a claim for \$8.65 on account of an erroneous assessment for sewer in East Brainerd.

#### CRIME IN LARGE CITY

Former Chief of Police Louis Harthill, Gave an Illustrated Lecture at Park Theatre

Louis Harthill, former chief of police of Minneapolis, spoke at the Park theatre on vice, dope and crime in a large city, his lecture being illustrated by moving pictures and one hundred slides revealing interesting facts. In his talk he gave a history of the Dunn murder, took up various sources of crime and the best means for prevention. Conditions the police force had to cope with, their limitations, the best methods for the prevention of crime were fully discussed.

### CROW WING COUNTY IN FIFTH LOAN

Allotment Not Yet Made Public. County to Date in 4 Loans Subscribed \$2,040,550

#### INDIVIDUAL ALLOTMENT SYSTEM

Carl Zapffe, Chairman in Third and Fourth Loans, Named to Head Fifth Loan

What the Crow Wing county allotment will be no one knows. According to rumors, the common impression is that five billion dollars will be asked of the entire county, the government reserving the right to take as much as it may desire of the over-subscription. This will mean that Crow Wing county will have to subscribe about the same sum it did in the Fourth drive. Each chairman organizes his own district; a lump sum or allotment is set for each district to raise as its share.

The county has subscribed the following sums in past loans:

First Loan	\$116,000
Second Loan	441,500
Third Loan	663,050
Fourth Loan	819,700

Total \$2,040,550

The individual allotment system will be used again and people will also be asked to appear again at definite places and buy bonds "over the counter." This has proved the easiest way, the quickest way, and the fairest way to all concerned.

The county organization for the Fifth Liberty Loan is already perfected and daily plans are being evolved to make this drive fully as successful as previous ones. Long preparation and close attention to all details have always marked our county bond campaign work, and success is bound to result. Before every bond drive there was always skepticism regarding its success and the Loan was put over with a flourish. The Fifth Loan will also put over successfully.

Carl Zapffe, county chairman in the Third and Fourth Loans, has been reappointed for the Fifth Loan. He has appointed the following men as district chairmen, most of whom have assisted him in all the past Loans. With such experienced leaders to rely upon, the county will surely be successful once more.

### NEWS FLASHED TO BRAINERD BY RADIO

Bob Trent and Lamont Koop, soldiers returning from the war zone, flashed the news of their homecoming to relatives in Brainerd Wednesday by radio from their ship, the U. S. S. Dakotan at sea, to Boston and thence by wire to Brainerd. They expected the vessel to dock in New York Wednesday morning. The soldiers were in the best of health.

The radio flashed from the ship at 6:24 P. M. March 18, reached Brainerd by wire at 7:59 and was telephoned to Alderman F. M. Koop three minutes later.

#### At the Best Today

The admirers of Pauline Frederick, the beautiful Paramount star, will be much interested in the announcement that her latest photoplay "A Daughter of the Old South," will be shown at the Best theatre today. Miss Frederick portrays the role of a Creole girl in this splendid photoplay which was written by Alicia Ramsey and Rudolph de Cordova, and her characterization is said to be essentially different from any which she heretofore has essayed in motion pictures.

#### Suffered for Eight Years

Rheumatic pains, lame back, sore muscles and stiff joints often are due to overworked, weak or disordered kidneys. Daisy Bell, R. F. D. 3, Box 234, Savannah, Ga., writes: "I suffered eight years with pain in the back and could not do any of my work, but since taking Foley Kidney Pills, I can do all of my work." H. P. Dunn.

### NEW FURNITURE FIRM IN CITY

Fitzsimmons & Wagner Buy the Business of W. S. Orne of 716 Laurel Street

#### DEAL WAS CLOSED IN MORNING

Mr. Wagner Formerly With Patek & Son, Jacob Hellstein and Grand Forks House

Fitzsimmons & Wagner is the name of a new furniture house partnership formed which Wednesday morning purchased the store of W. S. Orne at 716 Laurel street and took possession.

The senior partner is A. J. Fitzsimmons of Glyndon, a prominent business man of that section who is a well known grain buyer and owns elevators there. W. H. Wagner is known to Brainerd, for he was with the firm of Patek & Son, later with Jacob Hellstein when the Patek's sold their store, and then for some period was with the Panovitz Furniture & Carpet Co., of Grand Forks. This experience in merchandising has given Mr. Wagner an insight in the needs of a city like Brainerd and the firm will add a brand new stock of spring goods and thus be prepared to cater to the best of Brainerd trade.

The business will be exclusively one of house furnishing. Mr. Wagner has removed his family to Brainerd from Grand Forks. Mr. Fitzsimmons, who is the father of Mrs. Wagner, will remove to Brainerd within thirty days.

Inventory of the goods of the Orne store was completed this morning.

Mr. Orne stated he did not intend to leave Brainerd, but that his object in life was to establish his son, Bert, lately returned from service in the navy, in business, either in Brainerd or Crosby. Mr. Orne has been sixteen years in business in Brainerd and during that time built up a very nice trade.

### MISCOUNT BLASTS, KILLED BY SHOT

Crosby, Minn., March 19—Two miners were killed at the Armour No. 2 mine when they miscounted the number of blasts and started back to work before the last shot had exploded. They were identified as Rade Rabul and Jacob Rabul.

### BABCOCK ROADS AID CITY STREETS

Plan of State Highway Commissioner of Rural Trunk Roads Would Benefit Brainerd

#### STATE PAY PART OF THE COST

Means Improved South Sixth Street, Laurel and Oak Streets—Boon to Brainerd

State highways, paved in most approved manner where they lead through Brainerd are possible under the provisions of the Babcock laws providing the people of the state ratify the comprehensive plan of hard surfaced roads embodied in the Babcock plan.

Here it is in a nutshell. The paving by the city of State Road No. 4 as it leads from South Sixth street at the city limits north to Laurel, the paving of State Road No. 2 as it leads from Laurel west to the city limits of West Brainerd and east on Oak from Sixth to the city limits, if done in accordance with the Highway Commissioner's plans, will entitle the city to a certain refund, because such streets are parts of the highways named.

These are trunk roads and the paving must be at least 18 feet wide. Brainerd, by working for the passage of the Babcock plan and its adoption by the state at large, is assured of state aid in the paving of miles of streets.

Furthermore, Crow Wing county gains 100 miles of hard surfaced roads.

Brainerd, in anticipation of the passage of the Babcock trunk road bill, has its City Engineer R. T. Campbell working in conjunction with County Engineer C. L. Mott, to have the street work in Brainerd on the streets named so planned as to be in conformity with the state highway plans so that Brainerd will be entitled without question to its refund, providing the state adopts the plan, deemed by many to be the most comprehensive system of highways every drawn up in the history of this or any other state and linking together all sections by roads passable every day in the year and all accomplished within a few years instead of after generations of hopeful waiting.

#### At the Best Tomorrow

There are few men in public life who are better known than Herbert Hoover, Food Administrator, who is now in Europe in charge of the distribution of food to starving neutral and suffering belligerent nations. Mr. Hoover's office in Washington may be seen in Marguerite Clark's new photoplay "Little Miss Hoover," which will be shown at the Best theatre tomorrow.

The set used in "Little Miss Hoover" is a replica of Mr. Hoover's office where Miss Clark discussed the purposes of food conservation with the celebrated administrator. On the walls are the national colors, a map of the United States and a picture of President Woodrow Wilson.

The story deals with the fortunes of Nancy Craddock, a beautiful society girl of Washington who is an enthusiastic food conservationist after she has heard a speech by President Wilson. She becomes a farmette and after adopting the slogan "eggs will win the war" she goes on a farm to raise chickens, and incidentally to improve the prospects of her impoverished family. She meets a gentleman farmer who is employed on her farm and an interesting love story develops. How she gets rid of one

## WANTED Branch Manager

Established Corporation

Largest concern of its kind in the world, recently organized for the production of mammoth patriotic work, is opening a Branch Office in Brainerd, requires services of good business man as Manager. Applicant must assume duties within two weeks, be able to direct small sales force, the most of whom will be attracted to the work on account of its patriotic nature. The work will also give employment to several returned soldiers. \$1,000 cash bond required, fully secured. Entirely new proposition; national advertising campaign starting, which will include 30 double page ads in local papers, and biggest publicity campaign ever staged in Brainerd.

Tremendous opportunity. Replies solicited from parties who find their business unprofitable or not in harmony with war conditions. Commission basis with earnings upward of \$5,000 per year. Permanent position.

Sales Manager will assist in organizing sales force and supervise opening of Branch House. Make your answer complete to secure interview. You will be required to come to Chicago for two days' instruction and training, and unless you can do so at once it will be useless to apply. Unless you have the money for cash bond, and your reputation will stand the third degree, save your stamps. This is a real opportunity that will present itself but once in a lifetime. Write or wire, President, 908 National Life Building, Chicago, Ill.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, Ohio. Sold by all Druggists, 75c.

## Easy Immobilization.

In birds and mammals immobilization can be occasioned at will. In the seventh century Kircher immobilized fowls merely by turning them upon their backs. The experiment can be successfully made with any kind of bird. I have performed it with sparrows, with a wrenneck and with the finch immediately after their capture, thus excluding all idea of training. The same result can be obtained with various mammals, especially with mice.—Exchange.

## REVIEWS NOTED THIRD DIVISION

General Pershing Inspects Americans Who Fought in Battle of Marne.

## AWARDS MANY MEDALS

Heroes of Fighting at Chateau Thierry Came Ten or Fifteen Miles for Event and Bivouacked Along Highway.

Coblentz, March 19.—The men of the Third division of the American army who fought against the Germans on the Marne in the last great German drive were inspected, reviewed and presented with decorations by General Pershing. The review was held in the great aviation field near Andernach, on the west bank of the Rhine. Heroes of the fighting at Chateau Thierry in July, in many instances came 10 to 15 miles for the review and bivouacked along the highway leading to the parade grounds. The reviewing stand was in the center of the field, the entire division sweeping by on both sides of the commander-in-chief.

In addition to two congressional medals of honor and other American decorations, awarded the Third division, a number of French and British medals were presented by General Pershing to men of the Forty-second division who fought with the British in Northern France with the Twenty-seventh division.

The medals of honor were given Lieut. George Hays of Oklahoma and Corporal Barkley of Missouri. Brig. Gen. H. G. Bishop received the distinguished service medals and the distinguished service cross and Col. William McCleave, chief of staff for General Robert L. Howze, was given the distinguished service medal. Eighty-eight distinguished service crosses were given to officers and men of the Third division.

The Twelfth Aero squadron took photographs of the troops during the inspection, returned to Coblentz, a distance of seven miles, developed the plates, returned and dropped 20 photographs for Generals Pershing, Dickman and Homze, all in 50 minutes.

## SENATE MAY SIDESTEP PACT

Lenroot Says War May Merely Be Declared at an End.

Washington, March 19.—If President Wilson does not negotiate a peace treaty satisfactory to the Senate, Senator Lenroot of Wisconsin, Republican, said in an address on the league of nations before the Washington Commercial club, Congress may pass a joint resolution summarily ending the war with Germany without a treaty, leaving American participation in the league of nations to future determination.

## BRITAIN BUYS FOE POTASH

Proceeds of Sale Will Apply On Foodstuffs Furnished.

Copenhagen, March 19.—Under the agreement reached at Rotterdam, a dispatch from Berlin says, Great Britain will receive 30,000 tons of potash from Germany. Negotiations with other Allied countries were not completed. The proceeds of the sale of the potash will be credited to Germany in payment for food supplies.

## REMOVES LEGAL OBSTACLE

Attorney General Rules Soldiers' Insurance May Go to Estate.

Washington, March 19.—The last legal obstacle to the issuance of a new insurance policy into which soldiers' insurance may be converted, was removed when Attorney General Palmer gave an opinion that the Treasury might pay insurance to the estates of deceased persons as well as to specified beneficiaries.

## ALLIED BOARD TO CONTROL

Commission Will Look After Navigation On the Rhine.

Paris, March 19.—The future navigation of the Rhine will be controlled by an allied commission, the Peace conference commission on the international regime of ports, railways and waterways decided. The commission will replace the German-Holland commission of before the war.

## FORCE CASHIER INTO VAULT

Three Bandits Rob Tennessee Bank of About \$5,000.

Nashville, Tenn., March 18.—The Bank of Goodlettsville was robbed of between \$5,000 and \$6,000. While one robber waited in an automobile, two others entered the bank and locked the cashier, S. H. Wilhoite, in the vault. They then helped themselves to the cash and fled.

## German-Austria in Republic.

Basel, March 19.—A Vienna dispatch says a law has been enacted declaring German-Austria to be part of the German republic. Realization of the union, the dispatch says, remains subject to negotiation, and in the last instance, to a plebiscite.

## Red Sox Second Sacker Signs.

Boston, March 19.—Dave Shean, second baseman for the Boston Americans, signed a contract after having been at odds with the management on salary questions.

## HAD FOUND SOMETHING NEW

Literary Boob Got Some Satisfaction Out of His Rejection for Service in Army.

Of course, it happened long ago. The poor literary boob had made application for entrance to an officers' training camp. The examining surgeon found that, besides suffering with flat ears, ingrown hair, tobacco eyes and a mole on his spine, the poor fellow had a complexion too sallow to harmonize with khaki. So the surgeon had to reject him. The chap began to rave and to tear his hair and to cast ominous glances toward the river. The surge, kind-hearted old military sawbones that he was, saw something must be done quickly, so he seized a little square piece of paper and on it printed the following words: "For once your contribution is rejected because it lacks merit. Furthermore, we do not have an abundance of similar material on hand. We positively will not be glad to receive further contributions from you, because it will simply waste your time and ours. Cordially yours, the United States Army."

With a glad cry, the literary boob pressed the life-saving little document to his lips and, with a fervent prayer for the health and safety of the kind old "surge," went on his way rejoicing that he had tried to do his bit and for once it was his fault that it didn't stick.—Indianapolis News.

## Not New at All.

Yes, sir; they had life preservers in ancient Rome, the cork kind, you know. Why, a fugitive from justice used one to carry him safely across the Tiber in the line of Camillus and that's proof, isn't it?

As for jumping jacks! When young hopeful crows with glee as you dangle one just out of his reach, just remember that some Pharaoh papa did the very same thing centuries ago back on the banks of the Nile. The proof? Jumping jacks have been found in Egyptian tombs.

Then again, these cartoonists you read about as pulling such enormous salaries need not think they have fallen on a new profession. There were cartoonists back in the middle ages, only they were called "merry counselors," and were ranked only one step higher than the fools. They did not draw their witticisms, but commented and ridiculed the vices and manners of the day in declamation and imitation.

## Where Hoyle Fails.

Those who continue to amuse themselves with cards will agree that Hoyle explained everything but how to win.—Columbus Dispatch.

## CHURCH WORKER HELD

Accused of Champlin Bank Attack, Said to Have Confessed.

George Hyatt, Printer and Church Deacon, Reported to Have Been Robbing for 10 Years.

Minneapolis, March 19.—George Hyatt of Anoka, arrested in connection with the robbery of the First State bank at Champlin, has been committing petty robberies for ten years, while he was a deacon of a church and a Sunday school worker, according to an admission by Hyatt, said to have been made to the police.

The story of a 15-year-old alleged accomplice, told to County Attorney W. A. Blanchard of Anoka, led to the arrest of Hyatt, who was brought here from Anoka by Sheriff C. S. Pratt of Anoka.

Full Admission, Asserted. In the sheriff's office, before Chief Deputy Sheriff William Fust and other deputy sheriffs, Hyatt is said to have admitted all his connections with the robbery of the bank and the assault on the teller, Miss Hazel Flynn, when she refused to reveal the combination of the safe.

He told the police he has been committing petty thievery in Anoka and Champlin. On Sunday he taught in the Sunday school, was a deacon in the church and piled his criminal trade at night and between times. He worked as a printer on the Anoka Herald.

So great was the faith of Anoka in Hyatt that even the sheriff, the local police and the county attorney were loath to take him into custody when the first suspicions came to them.

They worked at the case, doubting all the time that they were on the right track. But, it is said, the weight of evidence was so great as finally to overcome their doubts, and they took Hyatt into custody.

Hyatt is about 30 years old and unmarried.

## PARENTS HELD FOR MURDER

Officials say 12 Year Old Girl Was Beaten to Death.

Jamestown, N. D., March 19.—Charged with the murder of their 12 year old daughter, Etta, Mr. and Mrs. Daniel McDonnell of Courtenay were brought here and lodged in the county jail to await trial. The child's death, according to the coroner's jury, was due to concussion of the brain, said to have been caused from blows by her parents and starvation.

Pitiful conditions were discovered in the McDonnell home, Etta, the dead

girl, not only had been beaten from head to foot, but both feet had been so badly frozen that she probably had been unable to walk for some time prior to her death.

## DAILY MARKET REPORT

## Agree to Renounce Rights.

Basel, March 19.—The Augsburg Zeitung says an agreement has been signed by representatives of the various German states whereby they renounce their rights, particularly regarding military questions.

## IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

# Reading advertisements will save your time

The wise shopper keeps in touch with the advertisements of her favorite stores. When she sees announcements of goods in which she is interested, she knows right where to go to find them. She knows when they are put on sale.

No time is lost in aimless looking and asking. Reading the advertisements saves her time for other duties or pleasures.

When parents decide to send a boy or girl away to school, they cannot take the time to go and inspect a great number of schools from which to choose. They study the advertisements of schools and to the ones that seem to offer right conditions they write for catalogs.

When a man decides to buy an automobile, he reads carefully the advertisements which tell about the different makes of cars and then he calls to see only those in which he is interested. He does not start out by hunting up the salesrooms and looking at all the cars sold.

These are only a few of the ways in which reading advertisements saves the time of readers. There are many others.

Your daily newspaper is full of advertisements which are not only interesting but have some special message of benefit to you.

Make a practice of reading them. You will find your time saved and your money better spent.

## PEACE TREATY TO BE SIGNED AT VERSAILLES

### AGREEMENT TO INCLUDE LEAGUE

Seen as Result of Paris Conferences With Object of Bringing Early Peace.

### NEUTRALS TO BE HEARD

Revised Covenant Expected to Be Ready by March 29—Demolition of Forts on Helgoland Decided on by War Council.

Paris, March 19.—Announcement was made at the close of a conference between President Wilson, David Lloyd George, the British prime minister, and M. Clemenceau, the French premier, that no final decisions had been taken but that all the main questions surrounding the Peace conference had been discussed, that the meeting had been entirely satisfactory and that there had been no change in the plans previously announced, which contemplate the completion of the peace treaty within the next two weeks, including the league of nations.

Paris, March 19.—The subcommittee of the League of Nations commission met two days ahead of schedule. All neutral countries with the exception of Spain were represented.

Paris, March 19.—President Wilson planned an important conference with Premiers Lloyd George, Orlando and Clemenceau, at the Paris White House.

The question to be discussed is the large one of obtaining accord between the Great Powers on all phases of the peace treaty and its early presentation to the Germans. It is expected an agreement will be reached as to the inclusion of the League of Nations, as an integral part of the peace treaty, in accordance with the resolution which already has been adopted by the peace conference.

Special interest attaches to conference in view of recent reports of divergences between the powers as to the inclusion of the League plan in the treaty. The meeting is looked upon as an earnest effort to reconcile all views into a common understanding for an early conclusion of peace in a comprehensive form, including military, naval, economic and financial terms, as well as the League of Nations.

The general situation as to the peace treaty has been greatly clarified by discussions between the heads of various delegations. American commissioners took the view today that the attitude of the American, French and British governments should be brought into entire accord.

#### Tentative Accord Reached.

The conferences which have been conducted by Lord Robert Cecil of Great Britain, Leon Bourgeois of France and Colonel E. M. House of the United States have reached a tentative accord and there is reason to believe that today's meeting will approve the action thus taken.

Present plans contemplate the completion of hearings given neutral nations on the League of Nations during

#### PRINCE EITEL

Second Son of Former Kaiser Is Suing for Divorce.

Eitel Friedrich, second son of the former German emperor, has commenced divorce proceedings against his wife, charging infidelity, says the Kleine Journal of Berlin.

This present week, and during the succeeding week attention will be given to boundaries, reparation and other branches of the treaty. It is believed that the revised league covenant will be ready for adoption at the end of next week.

Disposition of German warships is not likely to be included in the treaty of peace, according to the view of the American peace delegation. Germany, however, will be required to surrender title to the ships. The ultimate ownership will be determined later.

The British delegation to the peace conference, it was announced today, has consented to refer to the supreme council the question of the future ownership of the German cables to America.

All parties interested in the question are preparing briefs.

#### Helgoland to Be Disarmed.

The fortifications on the island of Helgoland, Germany's formidable base in the North sea, must be dismantled. This decision was reached by the supreme Allied war council.

It was also decided that the Kiel canal should be internationalized and made available to the ships of all nations on even terms.

#### LONGWORTH ANSWERS MANN

Asks Former Floor Leader to Leave Organization Alone.

Washington, March 19.—Replying to a recent statement by Representative Mann of Illinois, Representative Longworth of Ohio, Republican, issued a statement asking the former Republican floor leader to "keep his hands off the organization and legislative control of the new house of representatives."

"That is the way," said the Ohio representative, "to bring about harmony in the party. That is the way to make success in 1920 certain."

## NO FRICTION OVER INCLUSION OF LEAGUE COVENANT IN PEACE TREATY

### American Troops Will Be Withdrawn From Siberia

(By United Press)

Los Angeles, March 19.—American troops now in Siberia will be withdrawn in the spring, Secretary Baker declared upon arrival here today. The exact date depends upon the weather conditions.

### Two Divisions Scheduled to Sail for Home

(By United Press)

Washington, March 19.—The 26th division New England National Guards, and the 42nd division, Rainbow division, are scheduled to sail from Brest to Boston and New York respectively between March 28th and April 7th the war department announced.

### Three Ships Arrive Today With Troops

(By United Press)

New York, March 19.—The transport Seattle arrived today with 1500 men and the cruiser Charleston with 1200. Also the steamer Harrisburg carrying detachments of the 147th infantry of the 37th division also arrived.

### 113th Field Artillery Returned Home Today

Newport News, March 19.—The 113th field artillery of the Old Hickory Division complete, arrived today aboard the St. Theresa.

### MUST PAY TAX ON DEMAND

Delinquents Lose Privilege of Payments by Installments.

Washington, March 19.—Collectors of internal revenue have instructions to notify all persons who failed to pay the first installment of their income tax last Saturday, that they thereby had forfeited their privilege of making their payments on the installment plan. All such delinquents must pay their full tax upon demand of the district collector. Persons who failed to file their returns may avoid the penalty of 25 per cent. in addition to the regular tax, if a sworn statement is presented with their return giving a reason for the delay.

### BISHOP J. W. BASHFORD DEAD

Was Well Known for His Missionary Work in China.

Minneapolis, March 19.—News that Bishop James Whitford Bashford, leader in the Methodist Episcopal church, died in a sanatorium near Los Angeles, Calif., has been received by relatives in Minneapolis.

Bishop Bashford was 63 years old. Since he was consecrated bishop in 1894 he spent most of his time in China, where he directed missionary work with headquarters at Peking. He made a wide circle of friends in Minneapolis during many visits here for Methodist conferences. He was here for the last time two years ago.

### STRIKE PARADE CAUSES RIOT

Shots Fired and Police Stoned in Lawrence, Mass.

Lawrence, Mass., March 19.—While the police were trying to break up a parade of textile workers shots were fired from tenement houses. Officers were stoned and persons in the crowd clubbed. Many arrests were made. It was the most violent disturbance that had occurred since the strike began six months ago.

### Germans, Austrians to Get Grain.

Basle, March 19.—The Inter-Allied food commission which has been conducting negotiations at Vienna has reached an agreement by which Germany and Austria will receive five convoys of grain daily by way of Trieste.

### Foreign Rotary Clubs Approved.

Chicago, March 19.—Formation of rotary clubs in countries where English is not spoken was approved at a meeting of officials of the International Association of Rotary clubs.

BY FRED S. FERGUSON, (United Press Staff Correspondent)

Paris, March 19.—The speed-up program of the peace conference was in full swing today. Committee sessions and meetings of the supreme war council this afternoon were expected to accomplish appreciable progress in winding up the terms of a preliminary peace with Germany.

Versailles has been definitely selected as the place for signing of the peace treaty.

BY WM. PHILIP SIMMS (United Press Staff Correspondent.)

Paris, March 19.—Another tempest in a teapot seems to have blown over today. Further investigations confirmed that Foreign Minister Pichon in his statement Sunday intended no opposition to the inclusion of the league of nations in the peace treaty, but merely questioned whether there was sufficient time to perfect the covenant for incorporation into the preliminary pact. Neutrals will have their opportunity to present recommendations for amendments to the constitution at tomorrow's session, and it is believed the covenant would be in shape to place before a plenary session for open debate by Saturday.

### Peace Congress Proceedings

BY FRED S. FERGUSON (United Press Staff Correspondent.)

Paris, March 19.—The supreme war council was expected to ratify formally today the tentative agreement understood to have been reached yesterday on territorial and financial questions of the preliminary peace treaty. The conference yesterday was attended by President Wilson, Premier Lloyd George and Premier Clemenceau. Italy and Japan were not present because the matters discussed did not affect them. The session was described as "satisfactory." Work is being pushed on the league of nations covenant, which shall be included in the preliminary peace treaty. A call was sent to all neutrals yesterday to have their recommendations for changes and amendments ready for presentation to the special session of the league sub-committee tomorrow.

Japan intends to press its position that the covenant which is designed to establish the equality of peoples should establish the principle of race equality.

### PROPERTY TO BE SOLD

France Will Buy American Holdings Overseas.

United States Owns Docks, Railroads, Warehouses, Hospitals and Barracks.

Paris, March 19.—Docks, railroads, warehouses, hospitals and barracks built by the American Expeditionary forces, to the value of \$185,000,000, will be sold to France for the best figure the American liquidation commission can obtain. None of these can be readily or profitably be removed, and the only alternative is to sell at the best bargain.

The liquidation commission is now negotiating for the disposal of various surplus properties belonging to the Expeditionary forces. Hundreds of thousands of uniforms have been dyed, so that they may now serve other armies, such as the Belgian, Polish and some of the Balkan states.

The present plan is to dispose of these surplus supplies among the governments which need them.

### For President of Prussia.

Berlin, March 19.—During debate in the Prussian diet over the question of a constitution for Prussia, a conservative speaker argued in favor of providing for the office of President of Prussia. This was objected to by Paul Hirsch, head of the cabinet, on the ground that to create a state executive would be interpreted as an attempt to create a substitute for monarchy. The assembly postponed a vote on the demand of the socialists that the state of siege in Berlin be immediately raised.

### Alleged Countess Arrested for Threatening Wilson

(By United Press)

Chicago, March 19.—Countess Aurelia Bethlen, who says she was a Hungarian noblewoman was under arrest today here, charged with sending threatening letters to President Wilson at Paris. The countess claimed she was gathering sociological data, and was a former lady in waiting to the Empress Elizabeth of Austria.

### British Take Steps for Ocean Flight

(By United Press)

London, March 19.—The British have taken the first step toward a trans-Atlantic airplane flight in the shipment of a secretly built plane, pilot and navigator to St. John's, New Foundland.

### Huge Relief Fund for State Fighters

(By United Press)

St. Paul, March 19.—Ten million dollars relief for the returned fighters of the state was proposed in a house bill introduced today.

### SEVEN NEW MEMBERS ADDED

New Democratic National Executive Committee Named.

Washington, March 19.—Homer S. Cummings, chairman of the Democratic national committee, announced the appointment of a new executive committee, enlarged to a membership of 16 by the addition of seven new members, with Mr. Cummings as ex-officio chairman. The committee personnel follows: John T. Harnett, Colorado; Charles Boschstein, Illinois; Dr. John W. Coughlin, Massachusetts; Isadore V. Dockweiler, California; Robert Ewing, Louisiana; Carter Glass, Virginia; Clark Howell, Georgia; Representative Cordell Hull, Tennessee; Senator A. A. Jones, New Mexico; Frederick S. Lynch, Minnesota; Norman E. Mack, New York; W. W. Marsh, Iowa; A. Mitchell Palmer, Pennsylvania, and former Senator Willard Saulsbury, Delaware.

### RAPS LEAGUE CONSTITUTION

Senator Reed of Missouri Opposes Plan as Presented.

Jefferson City, March 19.—At what he termed a "school" on league of nations proposal, United States Senator James A. Reed of Missouri presented his views at a joint meeting of the legislature.

"Visionary," "Worse than autocracy" and "British plot" were some of the expressions used by him in characterizing the league constitution which, he declared, with the exception of slight modifications, was a British document.

### FORM PERSHING POST NO. 1

World War Veterans Start Organization at Washington.

Washington, March 19.—General Pershing Post No. 1, has been formed as the District of Columbia branch of a proposed world war veterans' organization. Colonel E. Lester Jones, commander, announced that delegates would be appointed March 24, to meet with delegates from the states and overseas to consider a national organization program. General Pershing has been advised of the plan by cable.

### Federal State Banks Total 973.

Washington, March 19.—Sixteen state banks admitted to the Federal Reserve system in February raised the total roll of state bank members to 973, with total capital of \$52,817,000, surplus of \$493,512,000, and total resources of \$7,382,891,000.

### Harvey Thorpe Easy Winner.

Des Moines, March 19.—Except in the third round, Harvey Thorpe of Kansas City led all the way in his 10 round bout with Jimmy Hanlon Denver lightweight.

#### WOODROW W. SAYRE

First Photo of President's New Grandson and Namesake.

This is the first photograph taken of President Wilson's grandson and namesake, Woodrow Wilson Sayre, who was born to Mrs. Francis Sayre, the young daughter of the president. Mr. Wilson paid his little grandson a visit at Philadelphia en route to New York, where he took the George Washington for France.

### HINES SECURES FUNDS

War Finance Corporation Loans Railways \$50,000,000.

Money Is Advanced Under Ruling Supporting Industries That Are Essential.

Washington, March 19.—Fifty million dollars was loaned to Director General Hines by the War finance corporation as the first advance for the railroad administration since it was left without funds by failure of the congressional appropriation. Other loans will follow.

The loan was made to the director general as representative of railroads which the war finance corporation considers essential war industries.

Adequate collateral was given in the form of railroad bonds and notes, mainly. It is understood, bonds of the Pennsylvania railroad. The loan was made at 6 per cent, the same rate as is charged by the director general for most advances to railroads, and is payable by July 15.

The loan will replenish the railroad administration's funds which were almost exhausted owing to heavy demands and the failure in congress of the measure appropriating \$750,000,000 for the revolving fund. The railroad administration is expected to use the money for its more pressing obligations.

## UNITED STATES PRODS MEXICO

Urges Carranza Government to Take Steps for Protection of Americans.

### VILLA FORCES ACTIVE

Rebels Capture James E. Whetten, an American, and Joseph Bentley, Mormon Bishop, in Raid Near Las Cruces.

Washington, March 19.—The state department has instructed the American embassy at Mexico City to request the Mexican government to take all possible steps to protect American citizens in the territory in northern Mexico where Villa bands again have become active.

The Mexican authorities also will be asked to effect the release of James E. Whetten, an American, who with Joseph Bentley, a bishop of the Mormon church and a naturalized Mexican, was captured by Villa forces near Las Cruces, Chihuahua, some days ago.

Information that Whetten was in the hands of the bandits reached the department only a short time before a telegram was received from Representative Edward L. Hamilton of Michigan, who said he had been informed by Warren & Co. that employees of the company's ranch at Ojitos, Chihuahua, were held by Martin Lopez, a Villa leader, who demanded \$5,000 ransom under threat of killing the prisoners. The message said the foreman of the ranch was endeavoring to raise the money.

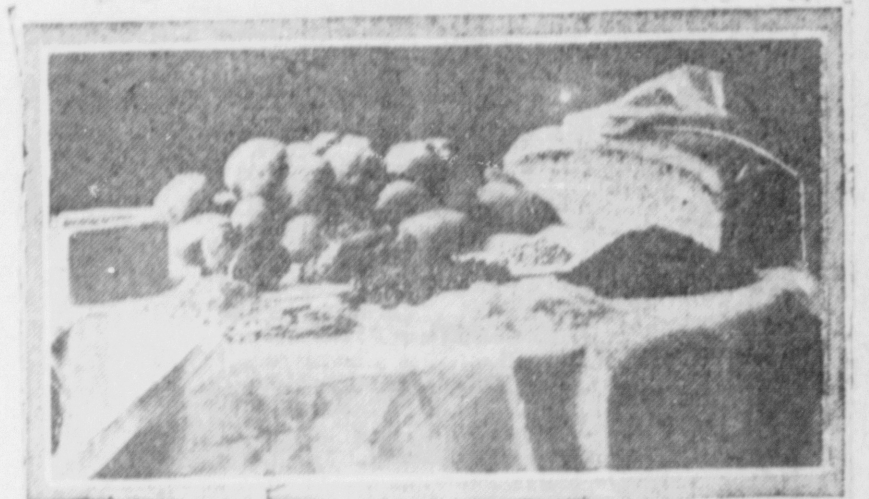

In connection with this case the department disclosed that two days ago it directed the embassy at the Mexican capital to urgently request the Mexican government to extend the proper protection to the employees and to the property of Warren & Co., at Ojitos.

### Troops Sent to Free Prisoners.

Juarez, Mexico, March 19.—Mexican federal troops have been ordered to western Chihuahua by forced marches to rescue Bishop Joseph C. Bentley, president of the Juarez Mormon state, James E. Whetten, chief missionary of the state, and Albert Tietjen another member of the Mormon colony in Mexico. They were captured by Villa troops near Las Cruces, Mexico, and are being held in Villa's main camp, according to unconfirmed reports.

Military information showed Bishop Bentley, Missionary Whetten and Albert Tietjen were being held in Villa's headquarters camp near Rubio, 70 miles west of Chihuahua City.

## Week's Food Allowance for Adult in Cologne and Labor Leader Who Took Sample to England

When Germany turns over her merchant ships she will be fed. This photograph, just received from England, shows the weekly allowance of an adult in Cologne. It was taken to London from Germany by George Lansbury, the British labor leader. It consists of three pounds one ounce of bread, four pounds of potatoes, ten ounces potato substitute, five ounces sugar, one ounce soap substitute, two ounces butter, four ounces meat, two ounces sausage, two ounces coffee substitute, one ounce barley and one ounce spaghetti substitute.

GEORGE LANSBURY

## Allies' Armistice Chief Seated in Same Chair Kaiser Used When He Was a War Lord

GENERAL NUDOUT

Only a few months ago ex-Kaiser Wilhelm sat in this chair discussing with the Hun war lords how to crush France, bring England to her knees, teach the "contemptible little army" of the United States a lesson and

make all the allies appreciate that they must bend to Germany's will. This photograph shows General Nudout, chief of the Allied Armistice Commission at Spa, seated in the same chair.

**BURTON ASKS TEN MILLION**  
Says Money Is Needed to Maintain Minnesota University.  
St. Paul, March 19.—Immediate appropriation of at least \$10,000,000 by this state legislature is necessary to keep the University of Minnesota and its faculty from going to the "scrap heap," Dr. Marion Leroy Burton, president, told members of the senate committee on finance.  
"For buildings alone, \$5,000,000 would cover only imperative needs, and \$7,000,000 should be appropriated to all necessary buildings are to be erected. Ten million dollars would be the correct amount of the building fund for this legislature to appropriate," Dr. Burton said.

**To Clean a Ceiling.**  
To clean a blackened ceiling, apply a coating of starch and water to the part that has been discolored by the gas with a piece of clean flannel. Let it dry, then brush lightly off with a brush, and no marks will remain.

**6 VARIETIES OF SPUDS SHOWN**  
Northern Minnesota Development Association Experts' Opinions Given  
12 SAMPLES AT CO. EXHIBITS  
Thirty-two Potatoes Each to be Used Making a Semi-Pyramid When Displayed

The six of the eight standard varieties of potatoes recognized by the State Potato Growers' Association and the Northern Minnesota Development Association, which are given preference in rules and suggestions formulated at the Northern Minnesota Development Association convention at Grand Rapids are as follows: Green Mountain, Rural New Yorker, Early Ohio, Russet Burbank and Bliss Triumph and the premiums for the Burbanks and the Kings at the next convention of the Northern Minnesota Development Association will be only half the size of the other six varieties. The reason for this is that the potato experts desire to show favoritism for the six varieties was considered the best adapted to Northern Minnesota.

County exhibits are to be composed of twelve samples of thirty-two potatoes each. The individual entries are also to be made up of thirty-two potatoes each. The reason for selecting thirty-two potatoes, is that a semi-pyramid can be made, using twenty potatoes for the lower tier and twelve for the upper tier. In this way, boxes will not be needed for the county exhibit, but if the present size boxes are used for the individual entries, thirty-two potatoes will fit in very nicely, making four rows of eight potatoes each.  
Potato growers in Northern Minnesota are urged to devote their attention to raising the six varieties mentioned of the eight standard varieties recognized by the State Association. It is considered by experts that Burbanks and Kings are not the best adapted for Northern Minnesota, although they have been raised in some sections with success.

**Hun Dignitaries Learn One Lesson**  
BY WEBB MILLER  
(United Press Staff Correspondent.)  
Coblentz, Feb. 13 (By Mail).—The Prussian provincial and city authorities at Coblentz got an unpleasant surprise when they tried to equivocate with the American officers in charge of civil affairs. Now they are working in harmony and evidently with a wholesome respect for the straight-from-the-shoulder methods of the Americans.  
After taking charge of the civil affairs end of the occupation, Col. L. L. Hunt sent for the president of the province and the burgomaster for a conference. At the appointed hour the secretary of each of the dignitaries showed up at the conference room to represent these officials. Col. Hunt immediately sent them back with a message that the president and the burgomaster should present themselves in person at his office within a half hour. In about 10 minutes the indignant officials appeared, protesting that their secretaries were empowered to speak for them.  
"When your secretaries have any business over here, they are at liberty to see my secretary," Col. Hunt told them, "but when I send for you I want you." Then he gave the ruffled officials a bit of advice. In the midst of his talk the president arose and announced that he was forced to leave to keep an important appointment.  
"What is this important appointment?" Col. Hunt asked. The Prussian declared that it was a very important conference with a "man from Bonn."  
"Sit down," Hunt ordered. "There is only one more important appointment that you can have, and that is with General Dickman, commanding the army."

The uneasy officials sat down and listened with attention to the reminder of Col. Hunt's speech.  
"You fellows needn't presume because we treat you decently that it is a sign of weakness on our part. It is merely an indication of our patience. Our patience is not endless. Your government presumed upon our patience once too often in time past, and it cost you the war."  
With these words ringing in their ears, the two officials departed. Since that time they have cooperated with the American officers to the best of their ability.  
Cut This Out—It is Worth Money  
DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Money and Tar Compound, for coughs, colds, and croup. Foley Kidney Pills and Foley Cathartic Tablets. H. P. Dunn.

**A Sewer Went Forth to Sew.**  
Said the facetious fellow, "When a man tries to sew a button on a coat he generally makes it appear as if he were sewing the coat on the button."

**Spring Coats and Suits**

This week we have on display the new spring styles in Printzess coats and suits. You will be delighted with the excellence of the materials, their exquisite colorings and exclusive designs. You will find in every garment shown the individuality and distinctiveness for which Printzess coats and suits have long been famous.

Every detail of finish receives the same careful attention as the original conception of the design itself. Because of this, Printzess coats and suits hold their shape and stylish lines. While they are the height of fashion, they are not the fashion of a moment.

Come in today while our assortment is quite complete, and we will show you what Printzess "Distinction in Dress" really means.

THE STORE OF QUALITY

**Steffolikes Found His Match in Army**  
(By the Overseas Camp Dodger News Service)  
Condrecoourt, France (Special by Mail).—Alexander Steffolikes is a Greek wrestler. Back in Yonkers, N. Y., his home town, he was looked upon as a sure bet for the championship of New York, New Jersey and vicinity which is taking in a large number of nationalities, if not so much territory. He was at Holding Camp No. 1, near Le Mans, awaiting a Hoboken-bound boat. Upon his sleeve was a gold stripe earned in chasing Jerries.  
Alexander threw everybody who would wrestle him at the casual camp and then looked around for other worlds to conquer. He sent a sweeping challenge to Le Mans for matches.  
One day a lantern-jawed youth blew into the holding camp. He said he knew a little about the mad game and Alexander invited him to a contest. The youth said that he had stated that he knew a little about the game, but didn't care to try anyone of Steffolikes' renown. Alexander implored, but the youth only shook his head.  
Finally Steffolikes gave up hope of getting a match and offered to bet 1,100 francs that he could throw anybody in the A. E. F. At this offer the lantern-jawed youth scratched his chin and said he didn't like the idea, but he was game to try—even with 1,100 francs on the match.  
He didn't have the money himself, being broke but he knew some men who were masters of the bones and they had it. He borrowed the necessary 1,100 francs and the match was staged. Thirty minutes after the match was started the youth had paid back the money he had borrowed and he had Steffolikes' 1,100 francs in his pocket.  
And, Steffolikes does not know, unless he reads this story or some of his friends do, that he had the honor of being thrown by Earl Caddock of the Eighty-eight division, world's heavyweight wrestling champion.  
Caddock was at Le Mans awaiting a ship home, but was sent back to the Eighty-eight by a general order. He is now working out at the 315th sanitary train in preparation for the A. E. F. wrestling matches in Paris.  
For several weeks his stomach has been troubling him, but he is now much better, part of the treatment being given by Capt. Joseph Ruyaviz, who has the task of getting the champion in shape, is a wild boar hunt several times a week. He loads Caddock with a German rifle and starts him out. The "big" boy is getting to be an expert with the rifle.  
The heavyweight championship of the Second Army has been conceded to Caddock without a contest. Representatives of the other "weight classes" in the Second Army will be selected by elimination contests in the near future.

## WOMAN'S REALM

## Swedish Baptist Church Notes.

A Quarterly Missionary Meeting—The Swedish Baptist church has planned to hold four missionary meetings during the year. The first of these meetings to be held Thursday evening.

The missionary service begins with a light lunch at 6:30 and a social hour. The lunch will be served by the Ladies' Aid society. As the lunch will be donated all the ladies of the church are asked to bring something in the line of food. No tickets are being sold and no admission will be charged.

The program begins at 8 o'clock in the church auditorium. Rev. R. E. Cody of the American Baptist church will give a stereopticon lecture on China. The choir will sing, and all members of the choir are asked to come prepared for a rehearsal before the program.

The object of the meeting is to raise our budget for Home and Foreign Mission work. The members of the church will please remember to bring a liberal offering—in envelopes—that the budget, unanimously accepted by the church, may be raised in full at this meeting. The public is invited to attend.

## 5-Cent Social

The Boys Club of the Swedish Bethany Sunday school will give a "5-Cent Social" at the church on Friday evening, March 21, at 8 o'clock. There will be five numbers on the program, given by the boys themselves, and five different refreshments will be served by them, the admission will be 5 cents. A good time is assured and there will be at least 555 smiles. The boys say only 555 persons will be admitted so be on time.

## Bethany Ladies Aid

Mrs. Frank Fredstrom and Mrs. August Swanson will entertain the Ladies Aid society of the Swedish Bethany church Thursday afternoon at 2:30 at the home of Mrs. Swanson, 806 South Sixth street. A cordial invitation to all.

## Bethlehem Aid

The Bethlehem Lutheran Ladies Aid will meet Thursday afternoon with Mrs. A. L. Anderson of Main street.

The MERCHANTS who ADVERTISE HAVE the FINEST STORES

## Guild-Ringing

Bessie Guild and Ira J. Ringering were united in marriage at 3 o'clock Tuesday afternoon at the home of the bride's parents, Mr. and Mrs. Daniel Guild, 514 North 4th street. Rev. R. E. Cody, pastor of the First Baptist church officiated.

Miss Pearl Ringering, a sister of the groom, acted as bridesmaid and Clarence Guild, a brother of the bride, as best man. The groom has recently returned from five months service with the A. E. F. in France.

A small company of near relatives were present. After the ceremony a bountiful wedding dinner was served.

The wedded couple will leave soon for South Dakota where they will make their home.

## Mid-week Service

The regular mid-week service will not be held at the First Baptist church on Thursday night. In its place a union missionary service will be held with the Swedish Baptist church on Oak street. At this meeting Rev. R. E. Cody will give a missionary lecture entitled "John Chinaman at Home," illustrated with many colored lantern slides. These views will give some scenes from the territory in which Miss Jennie L. Cody, who recently died in West China, has been laboring. Everyone is invited.

## Sunbeam Circle

The Sunbeam Circle will meet this evening with Mrs. Hans Erickson of North Ninth street.

## A TWICE-TOLD TALE

One of Interest to Our Readers  
Good news bears repeating, and when it is confirmed after a long lapse of time, even if you hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a Brainerd woman is confirmed after ten years.

Mrs. Anande Erickson, 1103 E. Oak St., Brainerd, says: "I suffered with my kidneys for two or three years. A dull pain through my back and loins burdened my health and kept me in constant discomfort. I was subject to headaches and dizziness. I tried Doan's Kidney Pills, procured at Dunn's Drug Store, and now I feel much better in every way."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Erickson had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## ALL WEAR VELVET

Material Also Popular for the Small Girl.

Enters Largely Into Construction of Best Frocks as Well as Garments for School Wear.

Everyone wears velvet this winter. This means that the small girl is either entirely or partially velvet-robed during the majority of her wide-awake hours. Velvet is not used to develop evening frocks for the very young, but it enters very largely into the construction of many best or "Sunday" frocks, as well as into the garment designed for school wear. The dress made entirely of velvet is usually very picturesque and distinguished, with white collar and cuffs, and often a wide sash of satin in self or contrasting color. For school or service wear a velvet skirt may be accompanied by a blouse of crepe de chine or satin, or a sleeveless velvet blouse may be worn over a plain or plaid frock of serviceable wool material.

The sketch shows a smart little frock for a girl of six or eight years, combining a one-piece dress of plaid serge in red and black with a square cut, hip-length coat of black velvet or velveteen, finished at the neck with a ruffle of white organdie or georgette. The sleeves of the jacket are cut short enough to show a few inches of the plaid sleeve.

The cap to be worn with this outfit may match either dress proper or jacket, or a combination of the two materials may be employed.

A great deal of attention is being paid to clothes for children this winter, and it is interesting to observe the exactness with which the wardrobe of the well-dressed grown-up is copied in miniature for the child.

Sleeveless and low-necked underslips of pale colored silks and satins

Velvet and Plaid Serge Dress.

for girls as young as four years are shown, to be worn under little party frocks of net and other sheer fabrics. Hand-embroidered silk pajamas and silk nightgowns are also developed for these very little people. This scheme of dressing has its advantages, too. It is a real education in the art of being well dressed, started at the right time.

## DIMITY AND DOTTED SWISS

Fabric Used for Blouses Which Give Most Pleasing Effect—Handkerchief Linens Used.

Dimity and dotted swiss blouses are made up in smartly tailored waists which button up to the chin and have long sleeves and tight-fitting cuffs. So many women like this sort of waist for morning wear and for sports that it is a delight to find it in these two such cool and fresh materials.

The organdie waist, which was brought out some seasons ago, never really caught on, though it was attractive in the rather vivid shades of blue, rose and canary. The organdie being so transparent, though so delightfully crisp, it looked particularly refreshing. Blouses made of it seemed practically two, as the smoothest fitting and most perfect of linings only underneath could be perceived.

It is the handkerchief linens which have supplanted these transparent beauties, and the linen lends all the charm of color which the crisp organdies presented. Many of the white linen waists have touches of color, as for instance in one smart model which has three stripes of color, one below the other and on each shoulder, these forming a sort of yoke. Very narrow frills finish the little yoke at the shoulders and trim the shallow, round collar and small cuffs.

## Smocks for Girls.

The pretty little cotton smocks and frocks worn by Miss Eight-Year-Old are made smart with cross-stitching or something in brightly contrasting wool. Pale green cotton crepe de chine, for example, is trimmed with stitches of rose wool. All kinds of wool dresses have oriental effects done in coarse stitches on the pockets, collars or sash ends. Wool embroidery many times ornaments the frock, about the neck, as a substitute for the white collar worn formerly.

## DRUGS that make the ILL one WELL

Drugs that make the ill one well are those drugs that have purity, potency and power, which are fresh and vigorous in their action and which are properly put together to bring out all that is remedially best in each and in the combination. So much, indeed, depends upon the druggist of ability to know all these things and to properly provide them for your benefit. So much depends upon you to carefully consider these things and to bring your prescriptions to us where so much is guaranteed.

EXCLUSIVE AGENTS FOR NYAL, A. D. S. AND SAN-TOX REMEDIES

Ironton spent Sunday with relatives. Miss Georgiana Bell attended the teachers' meeting in Brainerd Friday and Saturday.

A. Peterson of Reiner visited relatives in Cuyuna last week.

## Our Offer to Save \$10 to \$15 On Every Round Oak Pipeless Furnace Goes Into Effect Wednesday, March 19th

Beginning Wednesday, the 19th, we will accept contracts for the installation of the Round Oak Pipeless Furnace. This may be installed later in the season if desired.

In this connection we will also offer a special service. Every Round Oak Pipeless System sold will be installed according to a scientific blue print plan supplied free by the Round Oak Engineering Department.

It costs 5% or more to canvass for heating contracts. By your coming into our store during this 10 day period, you reduce our selling cost. You enable us to book ahead a large number of contracts which keep our men busy without loss of time.

We are in position to purchase the heaters, castings and fittings in large quantities. We propose to give YOU the benefit! Here are a few advantages of the

## Round Oak Pipeless Furnace

The Best Pipeless Furnace on the Market

It will heat your home year after year with a generous volume of pure, warm, moist, ever-changing air, free from dust, gas and smoke.

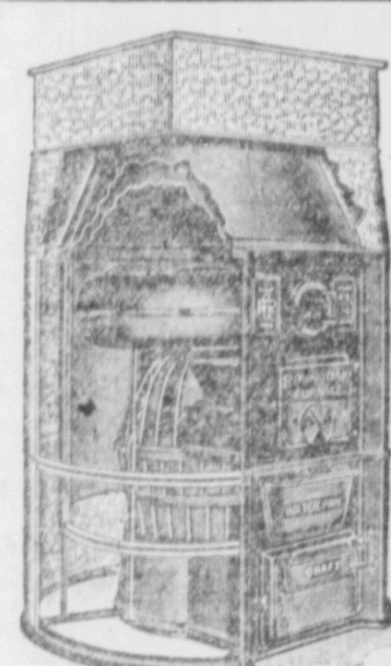

It will burn any and all fuels successfully and economically. It will hold the fire over night without recharging, even in zero weather.

## The Round Oak Pipeless Is a Clean System

The patented, improved, bolted and deep-jointed construction and its heavy castings mean no dust or dirt in your home.

We are positive it is the best built, most efficient, durable and satisfactory Pipeless Heating System on the market.

It is worth every cent you invest in its purchase. Its saving in fuel alone pays a liberal interest on the investment.

## 10 Star Points of Round Oak Pipeless Supremacy

(The best pipeless furnace on the market)

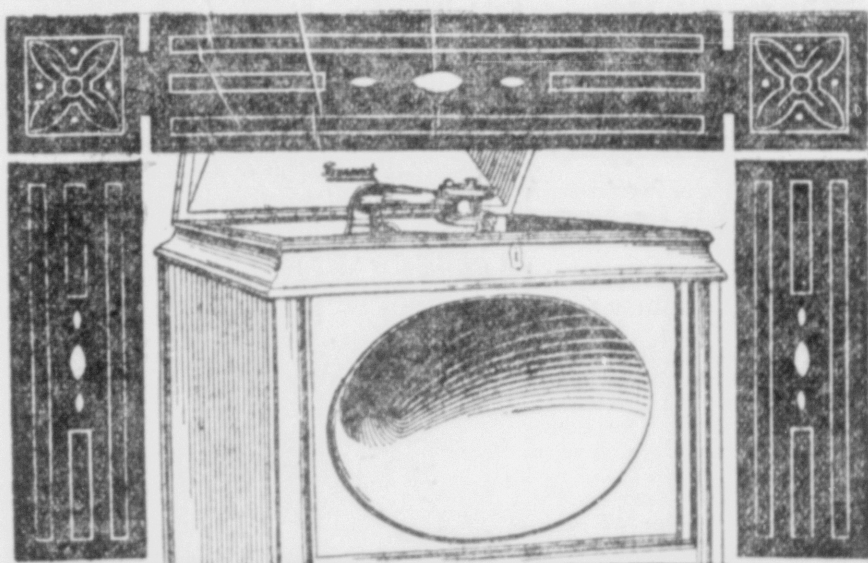

- ★1. Built Absolutely Fire Proof. (See Catalogue.)
- ★2. Improved, Gas and Dust Tight Bolted Construction.
- ★3. Burns All Fuels Successfully—Economically.
- ★4. Strongest—Lasts the Longest. Heavier too.
- ★5. Humidifies and Circulates Pure Air.
- ★6. Holds the Fire 24 Hours.
- ★7. Cool Basement—Delivers All the Heat to the Home.
- ★8. Responds more Promptly than a Stove.
- ★9. Easily Operated and Quickly Installed.
- ★10. Made by "Makers of Good Goods Only."

## Valuable Heating Book Free

You should secure one of these free Round Oak Pipeless Books, 9x12, profusely illustrated, which proves all of these claims and describes other distinctive advantages.

## Brainerd Hardware Co.

Laurel Street, Brainerd, Minn.

## Better Tone

## How The Brunswick Attains It

EVEN the most casual hearing of The Brunswick gives instant and conclusive evidence of its tone superiority. Your ear immediately detects the difference.

This betterment is due to the Brunswick Method of Reproduction, which includes two new ideas—the Ultona and the All-Wood Tone Amplifier.

The Ultona plays all records at their best, whatever make. Just a turn of the hand and the Ultona presents to each type the proper weight, diaphragm and needle according to its exact requirements.

Perfect reproduction is followed by perfect tone development through the new All-Wood Tone Amplifier. No metal is used in its construction.

Investigate The Brunswick before you buy; a visit to our shop will give you new standards by which to judge.

## WHAT HAS BANK DONE?

Anoka was shocked to hear that a model citizen was accused of the crime of robbing a bank and almost beating to death the girl cashier.

What is still a greater wonder is what the First State bank of Champlin is doing or has done or will do to reward the heroic girl, one out of a thousand, who stood her ground, refused to reveal the combination of the safe and saved the bank of thousands of cash in its vault?

The reward given Miss Flynn will prove an incentive to other cashiers, especially big strong men, to face a gun in the hands of a bandit and save the cash of their employers.

If nothing is done for Miss Flynn it will show that whole-souled devotion to duty must seek its reward in heaven.

## 8 HOUR DAY FOR FIRE TRUCK DRIVERS

The Dispatch heartily commends an 8 hour shift for the fire truck drivers, made possible by employing a third man. At present the two drivers are on 12 hour shifts.

Chloride of Lime. Where have we smelled it? Read today's article in the bond issue column. It is evident that to be safe more chloride rather than less than the required amount is introduced into the water. It may be all right to pour it into our bodily systems, but there are innumerable people in Brainerd who will not take the chance and use well water instead, or boil the river water. But who likes boiled water; show us the person; nothing could taste flatter. Then, think of it, few bugs are as dangerous as a billion; What chances we take. We know that chlorine does not kill crabs because one was taken alive out of a hydrant and is now enjoying a peaceful existence in the goldfish bowl in the Water and Light office.

## Willard-Dempsey Fight Creates Wide Interest

BY TOM LEWIS.  
 (Sports Editor United Press)  
 New York, March 17.—Interest in the forthcoming championship contest between Jess Willard and Jack Dempsey is increasing daily, according to well-informed boxing enthusiasts. It is predicted here that the bout will draw a record-breaking crowd if the fight is staged within easy accessibility of the Eastern and Middle Western states.

The fact that Dempsey has disposed of many of his opponents with such remarkable ease has made him tremendously popular with fight-lovers and many here are inclined to believe that the challenger will give the champion the battle of his pugilistic career. Willard too, is assured of the support of thousands of fans who believe that he will dispose of Dempsey with comparative ease if he can throw off his surplus weight and get into good condition before July 4 contest.

Some believe that Tex Rickard, the promoter of the scheduled bout, took a long chance when he offered such a huge inducement to get the contestants together, but Rickard, an old hand at the game, smiles confidently and declares that he has no misgivings as to the total gate receipts. Rickard bases his confidence on the theory that the country is ripe for a championship contest in the heavyweight division and he believes that the returning soldiers will be very eager to witness the fight. Hundreds of thousands of Americans have learned to box, as a direct result of their war training, and Rickard points out that these men will not only want to box themselves but will also be keenly interested in the sport from the viewpoint of the spectator. This circumstance, coupled with the fact that the best men in the heavyweight division have been idle for a long time leads Rick-

## WHY YOU SHOULD VOTE WATER WORKS BONDS

A series of articles prepared by the Water & Light Board to explain why new water works are necessary, what is planned to replace the old works, and the suitability of that which is advocated.

## XIV.

## Chlorination

The question has been asked why our present river-water, as served by the city, sometimes has such a strong odor of medicine, or hospital-like. We will explain this.

The odor referred to may be to some people resemble that of medicine or that of an operating room in a hospital, but it can also be detected around some out-houses and garbage barrels which have been disinfected to kill their natural odor; and the boys who faced the Huns are also familiar with the odor, unless they wore their gas masks. With us it is due to the same chemical, which has been injected in the water in Brainerd to kill bacteria and make the water safe to drink.

Surface waters, like Mississippi river, are loaded with typhoid bacteria, and many others but far less injurious, and must be disinfected before used. The commonest and best disinfectant is calcium hypochlorite, frequently called (and certainly better known as) chlorinated lime or "bleach." It is strongly disinfectant, which is its most important use. Its use in water is merely to protect against objectionable bacteria; no improvement in physical or chemical character of the water is contemplated, altho it does harden the water.

The form hypochlorite is used instead of the plain or ordinary chlorite of calcium because it contains more chlorine and holds it loosely, thereby readily setting free the active chlorine-gas, which destroys the bacteria in a few hours. The first pollution-gas used by the Huns was largely chlorine-gas. It is a powerful gas, and in laboratories great caution is exercised to guard against it. When using it in water it is always used in excess of the quantity actually required. It readily imparts its odor and taste. These can be neutralized by adding other chemicals, like calcium sulphite. If the water is deeply colored or contains much suspended matter, a larger quantity must be used and when our river water is real dirty the dose must be made still heavier.

The war made the price of bleach go skyrocketing, and since then, liquified chlorine gas in steel tanks or tubes sealed under high pressure has become the rule for our use. It discharges thru a small tube into a meter or measuring device directly into the mains.

Some authorities insist that chlorine is a "dope" rather than a germicide, claiming its action to be but temporary. Others claim that it attenuates rather than destroys. But even if an aftergrowth follows, the fact remains that in Brainerd it has stood between the people and disaster. It costs Brainerd \$2,000 per year to give this service. With an underground water-supply this expense will be eliminated entirely; if you filtered river water in a filtration plant it would still be necessary to use chlorine because a filter plant does not remove all the bacteria, and a few bugs are just as dangerous as are billions of them.

**Canadian Red Cross Train to Omsk.**  
 Vladivostok, March 19.—The Canadian Red Cross is sending another trainload of supplies to the Omsk district for Russian refugees.

**French Refuse Socialist Passports.**  
 Paris, March 19.—The government has refused to issue passports to three Socialists who were selected to go to Russia to investigate the Bolshevik government in accordance with the decision reached at the recent Socialist congress at Berne.

**Two Yanks Killed in Train Wreck.**  
 Paris, March 19.—An American freight train ran off an embankment near St. Nazaire, killing two Americans, and injuring the engineer and fireman.

**Stopped Cough After Influenza**  
 "Foley's Honey and Tar is the best cough medicine I ever tried," writes E. B. McDowell, R. F. D. 1, Box 119, Arlington, Tenn. "My son had influenza. He had the worst kind of a cough. I tried everything but nothing did any good. God sent me a friend with Foley's Honey and Tar, and in two days his cough was gone." H. P. Dunn.

and others to believe that the big bout will find immediate popular favor.

## NORTHWEST NEWS

## Better Business Congress

Minneapolis, March 19.—After the war development for the northwest was to receive its greatest incentive here today with the opening of a "Better Business" congress.

Secretary of Commerce William C. Redfield and Secretary of the Treasury Carter Glass were to be speakers at a series of meetings in the Twin Cities ending Friday with a big boost for the fifth liberty loan.

It will be the first time in history that two members of the federal cabinet have appeared simultaneously in the northwest metropolis.

Eight hundred and fifty commercial clubs throughout the ninth federal reserve district have been invited to send representatives to the congress. There will be a special session for commercial secretaries. W. G. Bruce of Milwaukee secretary of the Merchants and Manufacturers' association there will be the principal speaker at the conference of secretaries. Principal elements of the work that comes before such bodies will be widely discussed.

Secretary of Commerce Redfield will address the business men tonight on "Better Markets for American Products." Tomorrow noon he will address an open forum at the St. Paul association on "The Revival of River Navigation."

Secretary of the treasury Carter Glass will outline plans for the Victory Liberty loan at meetings in Minneapolis and St. Paul closing with a big mass meeting at the St. Paul Auditorium Friday night.

## Canadian Railway Building

Winnipeg, March 19.—Railroad construction in Canada will give employment to thousands of men within a few weeks. The first good weather will see men moving to the construction camps in large numbers and the first movement will start within a few days.

West of Port Arthur, Ont., the Canadian Pacific and Canadian National Railways will require 16,000 men for the summer. Other railway projects will require smaller numbers but there will be plenty of employment for all officials believe.

Within three months officials said, there is more apt to be a dire shortage of labor than a surplus.

## Teutons Speak of Another Struggle

By FRANK J. TAYLOR  
 (United Press Staff Correspondent)  
 (Copyright, 1919, by the United Press)

Berlin, Feb. 26 (By Mail).—Three months' careful study of Germany, following the signing of the armistice, forces the conviction that neither war from without nor revolution from within has worked any psychological metamorphosis of Germany as a nation, or of Germans as individuals. Neither the strength nor the weaknesses of the German people evidences any transformation. The minds which accept and apply the terms of peace will differ but little from those which steered the successful course of the German empire up to August, 1914.

The revolution has changed the form of government. It has not changed the governed. The war has brought to Germany defeat, disaster and destitution. It has not brought despair nor humiliation. A half-dozen speakers at the National Assembly in Weimar voiced the general feeling of the people when they said, in effect:

"We have not been defeated militarily. Hunger and the revolution forced us to quit. We accepted President Wilson's Fourteen Points and demobilized voluntarily, according to the provisions of the armistice."

The foreign office's policies and the attitude of its individual secretaries are unchanged; its personnel is practically the same as before the revolution, though the officials all profess to be democrats. Now they claim they opposed the war, especially employment of "frightfulness."

Count Bernstorff is considered by many well-informed Germans to be the man who is really running the foreign office with his cousin, Count Brockdorff-Rantzau, chief in name only. The Germans feel that Brockdorff-Rantzau's speech outlining the nation's foreign policy marked a new era in diplomacy because he stated frankly what the Germans consider modest. These included retention of the German colonies, a plebiscite for Alsace-Lorraine, repatriation of German war prisoners and reparation for damages only.

Ostensibly the censorship was removed with establishment of the present government. Yet priority of news dissemination is still preserved as an exclusive and monopolistic privilege of the Wolff Bureau, which was the semi-official propaganda agency under the old regime. Foreign news-

paper correspondents' dispatches are held up six hours after the same information is obtained by Wolff. This guarantees to that organization the opportunity of giving the world its first, and therefore its strongest impression of any internal German situation.

No German making the first pretense at frankness will attempt to create the impression that the disastrous results of 1914-1918 have created any deep-seated aversion to militarism among the German people. Men and women, both in and out of government circles, talk very casually of another war of revenge against France if Alsace-Lorraine is taken from Germany. They refer to this possibility as though it is to be accepted by everyone as a logical matter of fact.

Imperialistic, even monarchistic, utterances during the National Assembly meetings have stirred up no opposition from the delegates, except the radicals. For instance, Count Posadowski, conservative leader, defended Bismarckism. He advocated re-establishing the old regime, which he called the most benevolent and advanced government in the world. The delegates, save for a few radicals, listened blandly while Posadowski declared that a monarchy is the best form of government.

In addition to the Wolff Bureau's influence on foreign propaganda, there is now a new government department which daily is furnishing the people with inspired opinion through the press. The theme of this propaganda is: "There has been no revolution in Germany—just a new form of government." With the exception of government organs, the press refuses to take the National Assembly very seriously.

A number of younger employees who joined the government through idealistic motives are switching to the radicals, believing that a real revolution is coming when the industrial workers and soldiers' councils decide that their expectations are not to be fulfilled. These elements are thoroughly organized and refuse to relinquish an iota of their power, though a representative republic has been established, because they apparently mistrust the motives of the coalition leaders.

The situation in Germany, without doubt, is critical as regards food, industry and finance, but this does not seem to have effected any radical change in the psychology of the general public. Public opinion throughout the country does not fix the guilt for the war upon Germany, nor upon the ousted ruling class. It does not acknowledge German military defeat. Germans believe they are in their present position because—as their propaganda tells them—their idealism led them to lay down their arms and trust Wilson.

## College Students Learn Aviation

(By United Press)  
 New York, March 19.—Paying the way for future commercial aerial activities and at the same time making ready an air force for military needs, the Division of Military Aeronautics has arranged a training program for college students which will not interfere with their prescribed college courses but will, at the end of three years, turn them out prepared for commercial, sport or military aviation duties.

The plan, as announced by the War Department, in connection with its Exhibits at the Aeronautical Exposition here, permits the college student to absorb the courses previously included in the curricula of the ground schools while working for his degree.

The assumption of the War Department is that aviators must be young men, and they point to the experience of the war to prove their point. For this reason, they say, there must be a constant stream of candidates going through the schools.

The government's detailed plan as explained at the Aeronautical Exposition by Colonel B. E. Castle, formerly of the Control Board, Division of Military Aeronautics, is as follows:

"We are proceeding on the assumption that aviators will become superannuated more rapidly than any other kind of officer, so that it is imperative that the supply of trained personnel be kept up. In view of the strength of the air service at the cessation of hostilities and in view of the depreciation among our reserve officers of not less than ten per cent a year, it is estimated that we must draw about 1,000 pilots, 850 airplane and balloon observers, and 100 engineer officers every year.

"In order not to take the better part of a year of a man's time to train him as a pilot or observer, the machinery of the Reserve Officers' Training Corps was chosen as most likely to bring about desired results.

"In outline the plan is to give the equivalent of the work formerly done in the ground schools exclusive of

## POLITICAL ANNOUNCEMENT

(Issued by Dr. J. A. Thabes in his own behalf.)

To the Citizens of Brainerd:

I have been requested by citizens of Brainerd to become a candidate for the office of Mayor at the coming spring election on April 1st. This request has come from men in all walks of life and with whom I have been associated and acquainted for many years.

After careful consideration, and I must admit with considerable reluctance, I have consented. I will go before the voters representing no faction, organization or interest, but as a plain citizen of Brainerd and one who earnestly desires to do his part in promoting the best interests of this commonwealth.

The only public office I have ever held was a member of the school board from 1904 to 1908 and I now ask the voters to consider my candidacy for mayor upon its merits and judge me by my record of 37 years residence in this city. I appreciate the fact that the years immediately ahead of us will be vitally important years. To my mind, we are at the very doorway of an era of progress and development which will require the thoughtful consideration of the men who make up every department of the city. If it is felt by the voters that I will measure up to the responsibilities of the office of Mayor, I ask their support at the polls. If in their best judgment I will not fill the bill, I expect them to indicate it when they cast their ballot on April 1st.

If I am defeated, there will be no sore spots, and for any other candidate, I have nothing but the best of words to say. I appreciate the honor that has been conferred upon me in urging me to make the run. If I am elected, it will be my earnest effort to give this city a careful, businesslike administration of affairs, with no favoritism shown and with "A square deal for all" as my platform. There are no strings to my candidacy. I will make no promises, but will go before the people as a free, moral agent, asking their support and their confidence. Should I be honored at the election, I propose to devote such time to the administration of the duties of the office as are necessary and I will sever my connection, in any official way, with such community organizations, as I am now identified with, for I feel that the responsibilities ahead of the man, whoever he may be, who is elected to the office of Mayor, requires his undivided public attention.

DR. J. A. THABES.

military practice—that is, airplanes, engines, gunnery, navigation and maps, infantry and artillery cooperation, and signalling—at the college year and give flying and military training during the six weeks summer camp held at northern flying fields.

"Everything possible will be done to cultivate a high esprit de corps among the candidates by general lectures on the achievements of Air Service and by the fostering of sports and games as a part of the curriculum."

## WOMEN RESTORED TO JOBS

Labor Board Rules in Favor of Cleveland Conductors.  
 Washington, March 19.—Women streetcar conductors of the Cleveland Railway company, who were discharged March 1, must be restored to their work under a decision of the War Labor board made by Joint Chairmen Taft and Manly. Sixty-four women will be affected by the order. A former order of the board was set aside by the new decision, which restores seniority and other privileges to the women workers.

## Guard the Children's Health

Mrs. Effaw, Box 26, Bennett, Wis. writes: "We have always used Foley's Honey and Tar for colds and find it great. The children all run for it when they see the bottle and ask for more." Contains no opiates, safe, and harmless, but gives prompt relief to coughs, colds, croup and whooping cough. H. P. Dunn.

## COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Weyth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Weyth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## What Makes Men of Blood and Iron? Men of Stamina, Force and Success—Men Who Lead The Way

Physician Explains Secret of Strong Nerves, Keen Active Brains and Great Physical Energy—says

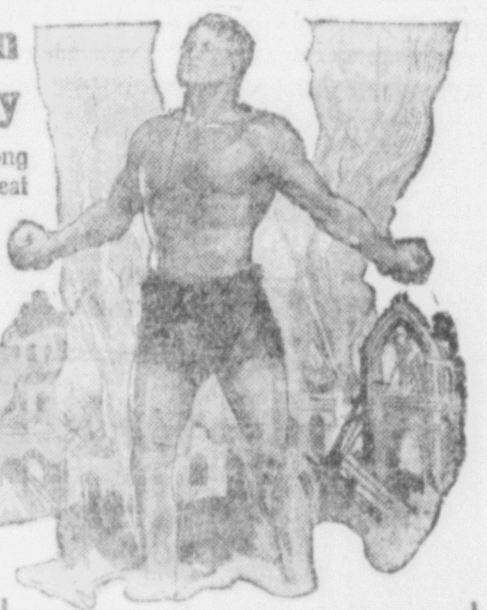

Nuxated Iron Helps Put Strength and Energy Into The Veins of Men

It is the men of blood and iron—on a par with the war-hardened, fellows returning from camp and field—who will forge ahead in the business and political life of the country today. Living in the open, eating coarse foods and leading regular lives have made blood rich in iron for these strong, healthy, vigorous specimens of manhood. But no such opportunity for building up their health is open to thousands of men and women in civil life whose wearing tasks and iron-improvised food sap their energy and make them weak, anemic and run-down and often cause their blood to literally starve for want of iron.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood, Dr. George H. Baker, formerly President and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Iron is absolutely necessary to change food into living tissue, muscle and brain. Without iron there can be no strong, red-blooded men or healthy, checked women, and unless this strengthening iron is obtained from the foods we eat, it must be supplied in some form that is easily absorbed and assimilated. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive. For supplying this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron."

A careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results. The fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, is in itself an evidence of tremendous public confidence and I am convinced that it should be made a stronger, healthier and more energetic.

### 3 SHIFTS, 8 HOURS, FIRE TRUCK DRIVERS

Alderman W. J. Lyonais Advocates Cutting Down Hours of Service and Putting on Third Man

#### MATTER UP IN THE COUNCIL

Condemnation Ordered of Property Needed for Installation of New Waterworks

Alderman W. J. Lyonais brought up in council the question of cutting down the hours of service for the fire truck drivers to 8 hour shifts and employing a third man for such service. No definite action was taken.

The council had a short meeting at which all members were present except Alderman Hall.

C. A. Stadlbauer made a verbal request for a permit to install an electric sign at his garage in the Benson building, corner 4th and Laurel, which on motion carried, was granted subject to supervision by the city engineer.

D. A. Peterson made a verbal application in behalf of the Woodhead Motor Co. for a permit for the installation of a filling station at its store building, corner 7th and Front streets and on motion of Aldermen Lyonais and Paine, carried, the request was granted subject to supervision by the city engineer in its installation.

Hugo A. Kaatz presented a petition from residents of Kindred street of East Brainerd for paving with cement Kindred street between the east end of the 11th and Third avenue. On motion of Aldermen Paine and Strickler, carried, the city engineer was requested to prepare an estimate of the cost of such improvements and take up the proposition with the Northern Pacific railway company with a view of securing from it a portion of the cost.

In the matter of the apparent deficit in the sewer construction fund, Aldermen Paine and Lyonais moved that the sum of \$2,926.69 be transferred from the permanent improvement revolving fund to the sewer construction fund, such amount representing interest accruing to said sewer construction fund and erroneously distributed to the credit of the revolving fund up to April 30, 1917. The motion carried.

Aldermen Strickler and O. C. Anderson moved that the city engineer be directed to place adequate safeguards at the washout on the fill on South Sixth street.

As a result of the past thaw quite a portion of the Betzold dump was washed away by water seeping through the embankment. Thirty feet of railing was torn away. The place is now protected at night by danger signals and the washout has been temporarily repaired until the frost is out when more extensive work will be carried out to make it safe. This is the third time the place has washed out and the repairs made this time are expected to remain there permanently.

The city engineer was also instructed to examine the reported washout on 13th street.

In a letter the Water & Light board asked that steps be taken to condemn the necessary property in connection with the installation of the new waterworks plant and on motion by Aldermen Paine and Turcotte, carried, the city engineer and city attorney were directed to work out the details and take the necessary steps for such condemnation.

The renting out of Lam park for the coming season was discussed and left with the city property committee for the conference with the Park Board and the Mahlum Lumber Co. to report on at next meeting.

The fire committee was granted further time in which to report on the matter of acquiring a siren for a fire alarm.

Albert Kosbab was allowed a claim for \$8.65 on account of an erroneous assessment for sewer in East Brainerd.

#### CRIME IN LARGE CITY

Former Chief of Police Louis Hart-hill, Gave an Illustrated Lecture at Park Theatre

Louis Hart-hill, former chief of police of Minneapolis, spoke at the Park theatre on vice, dope and crime in a large city, his lecture being illustrated by moving pictures and one hundred slides revealing interesting facts. In his talk he gave a history of the Dunn murder, took up various sources of crime and the best means for prevention. Conditions the police force had to cope with, their limitations, the best methods for the prevention of crime were fully discussed.

### CROW WING COUNTY IN FIFTH LOAN

Allotment Not Yet Made Public. County to Date in 4 Loans Subscribed \$2,040,550

#### INDIVIDUAL ALLOTMENT SYSTEM

Carl Zapffe, Chairman in Third and Fourth Loans, Named to Head Fifth Loan

What the Crow Wing county allotment will be no one knows. According to rumors, the common impression is that five billion dollars will be asked of the entire country, the government reserving the right to take as much as it may desire of the over-subscription. This will mean that Crow Wing county will have to subscribe about the same sum it did in the Fourth drive. Each chairman organizes his own district; a lump sum or allotment is set for each district to raise as its share.

The county has subscribed the following sums in past loans:

First Loan	\$ 116,000
Second Loan	441,800
Third Loan	663,050
Fourth Loan	819,700

Total \$2,040,550

The individual allotment system will be used again and people will also be asked to appear again at definite places and buy bonds "over the counter." This has proved the easiest way, the quickest way, and the fairest way to all concerned.

The county organization for the Fifth Liberty Loan is already perfected and daily plans are being evolved to make this drive fully as successful as previous ones. Long preparation and close attention to all details have always marked our county bond campaign work, and success is bound to result. Before every bond drive there was always skepticism regarding its success and the Loan was put over with a flourish. The Fifth Loan will also put over successfully.

Carl Zapffe, county chairman in the Third and Fourth Loans, has been reappointed for the Fifth Loan. He has appointed the following men as district chairmen, most of whom have assisted him in all the past Loans. With such experienced leaders to rely upon, the county will surely be successful once more.

### NEWS FLASHED TO BRAINERD BY RADIO

Bob Trent and Lamont Koop, soldiers returning from the war zone, flashed the news of their homecoming to relatives in Brainerd Wednesday by radio from their ship, the U. S. S. Dakotan at sea, to Boston and thence by wire to Brainerd. They expected the vessel to dock in New York Wednesday morning. The soldiers were in the best of health.

The radio flashed from the ship at 6:24 P. M. March 18, reached Brainerd by wire at 7:59 and was telephoned to Alderman F. M. Koop three minutes later.

#### At the Best Today

The admirers of Pauline Frederick, the beautiful Paramount star, will be much interested in the announcement that her latest photoplay "A Daughter of the Old South" will be shown at the Best theatre today. Miss Frederick portrays the role of a Creole girl in this splendid photoplay which was written by Alicia Ramsey and Rudolph de Cordova, and her characterization is said to be essentially different from any which she heretofore has essayed in motion pictures.

#### Suffered for Eight Years

Rheumatic pains, lame back, sore muscles and stiff joints often are due to overworked, weak or disordered kidneys. Daisy Bell, R. F. D. 3, Box 234, Savannah, Ga., writes: "I suffered eight years with pain in the back and could not do any of my work, but since taking Foley Kidney Pills, I can do all of my work." H. P. Dunn.

### NEW FURNITURE FIRM IN CITY

Fitzsimmons & Wagner Buy the Business of W. S. Orne of 716 Laurel Street

#### DEAL WAS CLOSED IN MORNING

Mr. Wagner Formerly With Patek & Son, Jacob Hellstein and Grand Forks House

Fitzsimmons & Wagner is the name of a new furniture house partnership formed which Wednesday morning purchased the store of W. S. Orne at 716 Laurel street and took possession.

The senior partner is A. J. Fitzsimmons of Glyndon, a prominent business man of that section who is a well known grain buyer and owns elevators there. W. H. Wagner is known to Brainerd, for he was with the firm of Patek & Son, later with Jacob Hellstein when the Patek's sold their store, and then for some period was with the Panovitz Furniture & Carpet Co., of Grand Forks. This experience in merchandising has given Mr. Wagner an insight in the needs of a city like Brainerd and the firm will add a brand new stock of spring goods and thus be prepared to cater to the best of Brainerd trade.

The business will be exclusively one of house furnishing. Mr. Wagner has removed his family to Brainerd from Grand Forks. Mr. Fitzsimmons, who is the father of Mrs. Wagner, will remove to Brainerd within thirty days.

Inventory of the goods of the Orne store was completed this morning.

Mr. Orne stated he did not intend to leave Brainerd, but that his object in life was to establish his son, Bert, lately returned from service in the navy, in business, either in Brainerd or Crosby. Mr. Orne has been sixteen years in business in Brainerd and during that time built up a very nice trade.

### MISCOUNT BLASTS, KILLED BY SHOT

Crosby, Minn., March 19.—Two miners were killed at the Armour No. 2 mine when they miscounted the number of blasts and started back to work before the last shot had exploded. They were identified as Rade Rabul and Jacob Rabul.

### BABCOCK ROADS AID CITY STREETS

Plan of State Highway Commissioner of Rural Trunk Roads Would Benefit Brainerd

#### STATE PAY PART OF THE COST

Means Improved South Sixth Street. Laurel and Oak Streets—Boon to Brainerd

State highways, paved in most approved manner where they lead through Brainerd are possible under the provisions of the Babcock laws providing the people of the state ratify the comprehensive plan of hard surfaced roads embodied in the Babcock plan.

Here it is in a nutshell. The paving by the city of State Road No. 4 as it leads from South Sixth street at the city limits north to Laurel, the paving of State Road No. 2 as it leads from Laurel west to the city limits of West Brainerd and east on Oak from Sixth to the city limits, if done in accordance with the Highway Commissioner's plans, will entitle the city to a certain refund, because such streets are parts of the highways named.

These are trunk roads and the paving must be at least 18 feet wide. Brainerd, by working for the passage of the Babcock plan and its adoption by the state at large, is assured of state aid in the paving of miles of streets.

Furthermore, Crow Wing county gains 100 miles of hard surfaced roads.

Brainerd, in anticipation of the passage of the Babcock trunk road bill, has its City Engineer R. T. Campbell working in conjunction with County Engineer C. L. Motl, to have the street work in Brainerd on the streets named so planned as to be in conformity with the state highway plans so that Brainerd will be entitled without question to its refund, providing the state adopts the plan, deemed by many to be the most comprehensive system of highways ever drawn up in the history of this or any other state and linking together all sections by roads passable every day in the year and all accomplished within a few years instead of after generations of hopeful waiting.

#### At the Best Tomorrow

There are few men in public life who are better known than Herbert Hoover, Food Administrator, who is now in Europe in charge of the distribution of food to starving neutral and suffering belligerent nations. Mr. Hoover's office in Washington may be seen in Marguerite Clark's new photoplay "Little Miss Hoover," which will be shown at the Best theatre tomorrow.

The set used in "Little Miss Hoover" is a replica of Mr. Hoover's office where Miss Clark discussed the purposes of food conservation with the celebrated administrator. On the walls are the national colors, a map of the United States and a picture of President Woodrow Wilson.

The story deals with the fortunes of Nancy Craddock, a beautiful society girl of Washington who is an enthusiastic food conservationist after she has heard a speech by President Wilson. She becomes a farmette and after adopting the slogan "eggs will win the war," she goes on a farm to raise chickens, and incidentally to improve the prospects of her impoverished family. She meets a gentleman farmer who is employed on her farm and an interesting love story develops. How she gets rid of one

MAN OR WOMAN WANTED—Salary time selling guaranteed hosieries to wearers. Experience unnecessary. Guaranteed Mills, Norristown, Pa. 3543-20810wrd

## Guard Health of Rhine Doughboys

BY WEBB MILLER

(Staff Correspondent, United Press) With the Americans on the Rhine, Feb. 20 (By Mail)—While American troops are on the Rhine, the inhabitants of the occupied region must stay healthy, or at least observe unusual sanitary and health precautions. This solicitude does not arise from any undue regard for the health of the Germans, but is an added protection to the American troops.

For that reason a special department of the civil affairs department is keeping an eye on the German sanitary arrangement and health supervision. This department is in charge of Lieut. Colonel Bensen, an experienced health department official.

By orders of the American authorities, the local public physicians in each district of the occupied area report immediately every case of sickness to the health department. The American commander in each town also sends in a report of each case of illness among the civilian population. In case of a contagious disease, Colonel Bensen at once investigates in order to halt any spread of the disease, which might affect troops quartered in the town.

In the little town of Linz cases of typhoid were reported. An investigation showed that the infection started from an unsanitary well, which was ordered destroyed, thereby stopping what threatened to become an epidemic before a single soldier was infected. Several other incipient epidemics have been halted by prompt investigation and strict measures.

The American health department has ordered the local German authorities to test the water of every well from which American soldiers derive water supplies once each month and submit the results of the test to Third Army headquarters. In case impurities are found, the well is shut off.

In his office in Coblenz, Colonel Bensen keeps a series of charts for each disease with each case of sickness, marked with a pin. When the number of pins begins to increase at any one point, an investigation is started. So far not a single case is reported of an American soldier becoming infected from civilians.

The strictness with which the sanitary regulations are enforced is shown by the fact that of 219 arrests of civilians throughout the occupied area during the first two months of occupation, forty-two were for disobeying sanitary orders.

## Over Bones of Failures.

Epitaphs in the Cemetery of Failure: He lacked tact; worry killed him; he was too sensitive; he couldn't say "no"; he did not find his place; a little success paralyzed him; he did not care how he looked; he did not guard his weak point; he was too proud to take advice; he did not fall in love with his work.

## Easy Immobilization.

In birds and mammals immobilization can be obtained at will. In the seventh century Kircher immobilized fowls merely by turning them upon their backs. The experiment can be successfully made with any kind of bird. I have performed it with sparrows, with a wrenneck and with the finch immediately after their capture, thus excluding all idea of training. The same result can be obtained with various mammals, especially with mice.—Exchange.

## REVIEWS NOTED THIRD DIVISION

General Pershing Inspects Americans Who Fought in Battle of Marne.

## AWARDS MANY MEDALS

Heroes of Fighting at Chateau Thierry Came Ten or Fifteen Miles for Event and Bivouacked Along Highway.

Coblenz, March 19.—The men of the Third division of the American army who fought against the Germans on the Marne in the last great German drive were inspected, reviewed and presented with decorations by General Pershing. The review was held in the great aviation field near Andernach, on the west bank of the Rhine.

Heroes of the fighting at Chateau Thierry in July, in many instances came 10 to 15 miles for the review and bivouacked along the highway leading to the parade grounds. The reviewing stand was in the center of the field, the entire division sweeping by on both sides of the commander-in-chief.

In addition to two congressional medals of honor and other American decorations, awarded the Third division, a number of French and British medals were presented by General Pershing to men of the Forty-second division who fought with the British in Northern France with the Twenty-seventh division.

The medals of honor were given Lieut. George Hays of Oklahoma and Corporal Barkley of Missouri. Brig. Gen. H. G. Bishop received the distinguished service medals and the distinguished service cross and Col. William McCleave, chief of staff for General Robert L. Howze, was given the distinguished service medal. Eighty-eight distinguished service crosses were given to officers and men of the Third division.

The Twelfth Aero squadron took photographs of the troops during the inspection, returned to Coblenz, a distance of seven miles, developed the plates, returned and dropped 20 photographs for Generals Pershing, Dickman and Homze, all in 50 minutes.

## SENATE MAY SIDESTEP PACT

Lenroot Says War May Merely Be Declared at an End.

Washington, March 19.—If President Wilson does not negotiate a peace treaty satisfactory to the Senate, Senator Lenroot of Wisconsin, Republican, said in an address on the league of nations before the Washington Commercial club, Congress may pass a joint resolution summarily ending the war with Germany without a treaty, leaving American participation in the league of nations to future determination.

## BRITAIN BUYS FOE POTASH

Proceeds of Sale Will Apply On Food-stuffs Furnished.

Copenhagen, March 19.—Under the agreement reached at Rotterdam, a dispatch from Berlin says, Great Britain will receive 30,000 tons of potash from Germany. Negotiations with other Allied countries were not completed. The proceeds of the sale of the potash will be credited to Germany in payment for food supplies.

## REMOVES LEGAL OBSTACLE

Attorney General Rules Soldiers' Insurance May Go to Estate.

Washington, March 19.—The last legal obstacle to the issuance of a new insurance policy into which soldiers' insurance may be converted, was removed when Attorney General Palmer gave an opinion that the Treasury might pay insurance to the estates of deceased persons as well as to specified beneficiaries.

## ALLIED BOARD TO CONTROL

Commission Will Look After Navigation On the Rhine.

Paris, March 19.—The future navigation of the Rhine will be controlled by an allied commission, the Peace conference commission on the international regime of ports, railways and waterways decided. The commission will replace the German-Holland commission of before the war.

## FORCE CASHIER INTO VAULT

Three Bandits Rob Tennessee Bank of About \$5,000.

Nashville, Tenn., March 15.—The Bank of Goodlettsville was robbed of between \$5,000 and \$6,000. While one robber waited in an automobile, two others entered the bank and locked the cashier, S. H. Wilhoite, in the vault. They then helped themselves to the cash and fled.

## German-Austria in Republic.

Basel, March 19.—A Vienna dispatch says a law has been enacted declaring German-Austria to be part of the German republic. Realization of the union, the dispatch says, remains subject to negotiation, and in the last instance, to a plebiscite.

## Red Sox Second Sacker Signs.

Boston, March 19.—Dave Shean, second baseman for the Boston Americans, signed a contract after having been at odds with the management on salary questions.

## HAD FOUND SOMETHING NEW

Literary Boob Got Some Satisfaction Out of His Rejection for Service in Army.

Of course, it happened long ago. The poor literary boob had made application for entrance to an officers' training camp. The examining surgeon found that, besides suffering with flat ears, ingrown hair, tobacco eyes and a mole on his spine, the poor fellow had a complexion too sallow to harmonize with khaki. So the surgeon had to reject him. The chap began to rave and to tear his hair and to cast ominous glances toward the river. The surgeon, kind-hearted old military sawbones that he was, saw something must be done quickly, so he seized a little square piece of paper and on it printed the following words: "For once your contribution is rejected because it lacks merit. Furthermore, we do not have an abundance of stellar material on hand. We positively will not be glad to receive further contributions from you, because it will simply waste your time and ours. Cordially yours, the United States Army."

With a glad cry, the literary boob pressed the life-saving little document to his lips and, with a fervent prayer for the health and safety of the kind old "sarge," went on his way rejoicing that he had tried to do his bit and for once it was his fault that it didn't stick.—Indianapolis News.

## Not New at All.

Yes, sir; they had life preservers in ancient Rome, the cork kind, you know. Why, a fugitive from justice used one to carry him safely across the Tiber in the line of Camillus and that's proof, isn't it?

As for jumping jacks! When young hopeful crews with glee as you dangle one just out of his reach, just remember that some Pharaohs papa did the very same thing centuries ago back on the banks of the Nile. The proof? Jumping jacks have been found in Egyptian tombs.

Then again, these cartoonists you read about as pulling such enormous salaries need not think they have fallen on a new profession. There were cartoonists back in the middle ages, only they were called "merry counselors," and were ranked only one step higher than the fools. They did not draw their witticisms, but commented and ridiculed the vices and manners of the day in declamation and imitation.

## Where Hoyle Fails.

Those who continue to amuse themselves with cards will agree that Hoyle explained everything but how to win.—Columbus Dispatch.

## CHURCH WORKER HELD

Accused of Champlin Bank Attack, Said to Have Confessed.

George Hyatt, Printer and Church Deacon, Reported to Have Been Robbing for 10 Years.

Minneapolis, March 19.—George Hyatt of Anoka, arrested in connection with the robbery of the First State bank at Champlin, has been committing petty robberies for ten years, while he was a deacon of a church and a Sunday school worker, according to an admission by Hyatt, said to have been made to the police.

The story of a 15-year-old alleged accomplice, told to County Attorney W. A. Blanchard of Anoka, led to the arrest of Hyatt, who was brought here from Anoka by Sheriff U. S. Pratt of Anoka.

## Full Admission, Asserted.

In the sheriff's office, before Chief Deputy Sheriff William Fust and other deputy sheriffs, Hyatt is said to have admitted all his connections with the robbery of the bank and the assault on the teller, Miss Hazel Flynn, when she refused to reveal the combination of the safe.

He told the police he has been committing petty thievery in Anoka and Champlin. On Sunday he taught in the Sunday school, was a deacon in the church and piled his criminal trade at night and between times. He worked as a printer on the Anoka Herald.

So great was the faith of Anoka in Hyatt that even the sheriff, the local police and the county attorney were loath to take him into custody when the first suspicions came to them.

They worked at the case, doubting all the time that they were on the right track. But, it is said, the weight of evidence was so great as finally to overcome their doubts, and they took Hyatt into custody.

Hyatt is about 30 years old and unmarried.

## PARENTS HELD FOR MURDER

Officials say 12 Year Old Girl Was Beaten to Death.

Jamestown, N. D., March 19.—Charged with the murder of their 12 year old daughter, Etta, Mr. and Mrs. Daniel McDonnell of Courtenay were brought here and lodged in the county jail to await trial. The child's death, according to the coroner's jury, was due to concussion of the brain, said to have been caused from blows by her parents and starvation.

Pitiful conditions were discovered in the McDonnell home, Etta, the dead

girl, not only had been beaten from head to foot, but both feet had been so badly frozen that she probably had been unable to walk for some time prior to her death.

## DAILY MARKET REPORT

Minneapolis Grain. Minneapolis, March 19.—Oats, May, 63½c; Hrs. May, \$1.62½; barley, choice, 88½c; Corn, No. 2 white, \$1.40@1.42; No. 3 yellow, \$1.42@1.44.

## Agree to Renounce Rights.

Basel, March 19.—The Augsburg Zeitung says an agreement has been signed by representatives of the various German states whereby they renounce their rights, particularly regarding military questions.

## IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

# Reading advertisements will save your time

The wise shopper keeps in touch with the advertisements of her favorite stores. When she sees announcements of goods in which she is interested, she knows right where to go to find them. She knows when they are put on sale.

No time is lost in aimless looking and asking. Reading the advertisements saves her time for other duties or pleasures.

When parents decide to send a boy or girl away to school, they cannot take the time to go and inspect a great number of schools from which to choose. They study the advertisements of schools and to the ones that seem to offer right conditions they write for catalogs.

When a man decides to buy an automobile, he reads carefully the advertisements which tell about the different makes of cars and then he calls to see only those in which he is interested. He does not start out by hunting up the salesrooms and looking at all the cars sold.

These are only a few of the ways in which reading advertisements saves the time of readers. There are many others.

Your daily newspaper is full of advertisements which are not only interesting but have some special message of benefit to you.

Make a practice of reading them. You will find your time saved and your money better spent.
